Dear Mr. & Mrs. Greenwell:

Enclosed please find a copy of your claim to a water right which was filed with our office sometime ago. We are returning a copy of the claim because it lacks the essential element of information--the date of priority.

If you do not know exactly on what date the water was first beneficially used, make your best educated guess based on the age of the house, old tax notices, or whatever information you may have.

After including this information in the claim's copy in Item 1, please return it to this office at your earliest convenience.

Re: Payette River Adjudication Claim # 65-8490

Dear Claimant:

In reviewing your claim to water right we are unable to verify that the water you've claimed is currently being put to beneficial use.

To obtain a water right under Idaho Statutes an individual must have a valid permit, license, or have diverted water for a beneficial use which could result in a valid right based upon a statutory or an adjudication claim.

Verification of a claim is usually accomplished by checking through the records at the County Assessor's office or by actual field investigations. You must have diverted water on your property and put it to a beneficial use prior to filing your claim. Under these conditions a recommendation to the District Court to confirm your water right can be made.

Please advise as to:

- whom the land ownership is currently listed. *Spring Valley Ranch*
- what development has been made on the property. *old domestic cabin*
- whether the water has been diverted and put to beneficial use. *stock*

If you have any questions regarding this matter please feel free to contact this office.

Sincerely,

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

RE: Payette Adjudication Claim # 55-8498 & 65-8490

Dear Claimant:

Enclosed is a copy of a claim that you filed with this office in connection with the Payette River Adjudication. You will note that the claim is incomplete in the following area(s).

_____ Date of Priority (the date the water first was applied to a beneficial use, or priority date of permit, decreed or licensed right)
 _____ Source of water (name of stream, lake, spring, groundwater, etc.)
 _____ Purpose of use (domestic, irrigation, stockwater)
 _____ Period of use (what time of the year is the water in use)
 _____ Point of diversion (where is water being diverted from; Township, Range, Section, Quarter Section)
 _____ Location of use (Township, Range, Section, Quarter Section)
☒ Number and kind of stock being watered
☒ Other
 _____ Remarks On claim No. 65-8498, are you using your well for domestic and stockwater only? Please indicate the number and location of acres being irrigated from the spring.

To enable us to recommend your water right to the District Court, it is necessary that we receive this information by telephone or correspondence as soon as possible. If you have any questions in this matter, feel free to contact this office.

Sincerely,

David R. Tutthill, Jr.

Dear Mr. & Mrs. Greening]]:

Enclosed please find a copy of your claim to a water right which was filed with our office sometime ago. We are returning a copy of the claim because it lacks the essential element of information--the date of priority.

If you do not know exactly on what date the water was first beneficially used, make your best educated guess based on the age of the house, old tax notices, or whatever information you may have.

After including this information in the claim's copy in Item 1, please return it to this office at your earliest convenience.

Sincerely,

Anita L. Harrington

RE: Payette Adjudication Claim # 65-8489

Dear Claimant:

Enclosed is a copy of a claim that you filed with this office in connection with the Payette River Adjudication. You will note that the claim is incomplete in the following area(s).

 X Date of Priority (the date the water first was applied to a beneficial use, or priority date of permit, decreed or licensed right)
 Source of water (name of stream, lake, spring, groundwater, etc.)
 Purpose of use (domestic, irrigation, stockwater)
 Period of use (what time of the year is the water in use)
 Point of diversion (where is water being diverted from; Township, Range, Section, Quarter Section)
 Location of use (Township, Range, Section, Quarter Section)
 Number and kind of stock being watered
 Other
 Remarks

To enable us to recommend your water right to the District Court, it is necessary that we receive this information by telephone or correspondence as soon as possible. If you have any questions in this matter, feel free to contact this office.

Sincerely,

David R. Tutthill Jr.

Re: Payette River Adjudication Claim # 65-8490

Dear Claimant:

In reviewing your claim to water right we are unable to verify that the water you've claimed is currently being put to beneficial use.

To obtain a water right under Idaho Statutes an individual must have a valid permit, license, or have diverted water for a beneficial use which could result in a valid right based upon a statutory or an adjudication claim.

Verification of a claim is usually accomplished by checking through the records at the County Assessor's office or by actual field investigations. You must have diverted water on your property and put it to a beneficial use prior to filing your claim. Under these conditions a recommendation to the District Court to confirm your water right can be made.

Please advise as to:

- ☐ whom the land ownership is currently listed. *Spring Valley Ranch*
- ☐ what development has been made on the property. *old foundation*
- ☐ whether the water has been diverted and put to beneficial use. *stick*

If you have any questions regarding this matter please feel free to contact this office.

Sincerely,

PROPOSED FINDING OF WATER RIGHTS

Dear Claimant:

The Department of Water Resources has presented to the Third District Court a Proposed Finding of Water Rights as a part of the Payette Basin Adjudication procedure. This letter is to notify you, as required by law, of the Department's recommendation to the court concerning the Claims identified below.

We have reviewed the following Claim(s) and are recommending to the Third District Court that it (they) be disallowed for the reason(s) indicated. Each number (65-) applies to a specific Claim that was filed by you or your predecessor. Note that you or your predecessor may have filed claims in addition to those identified below and that the disallowal of this Claim(s) does not necessarily mean you do not have another valid water right described elsewhere in the Findings.

<u>Claim Number</u>	<u>Name and Address</u>	<u>Reason For Disallowal</u>
65-8490	GREENWELL, DON A. & GREENWELL, MAUDELON BOX 58, RUPERT, IDAHO 83350	NO BENEFICIAL USE FOUND—USE FORFEITED OR ABANDONED.

There are 10 specific reasons for recommending disallowal of a Claim filed as a part of the Payette Basin Adjudication. I hope the following description of the reason applied to your Claim(s) will explain our recommendation for disallowal to the court.

No Beneficial Use Found - Use Forfeited Or Abandoned: Although your Claim stated you were using the water for a specific purpose, we found, in our review, the water was not being used. To hold a water right, water must be diverted and beneficially used; however, a water right is considered forfeited or abandoned after five years of continuous non-use. You or your predecessors may have used water for the purposes described on the Claim, but we have found that use ceased five or more years ago. Based on this finding we must recommend the Claim for that diversion and use be disallowed.

No Diversion Works: To hold a water right, water must be diverted by means such as a ditch or pump from a surface source or well. In our review of your Claim, we found there were no diversion works at the time of the claimed date of priority or even at present. We must inform the court, therefore, there is no water right developed and no water right as claimed should be decreed. This does not prevent you from developing a water right in the future. This action merely states you have not previously developed a water right at the location described in your Claim.

If you do not agree with these findings you should follow the procedure set forth in Section 42-1410, Idaho Code, which states in part that "Any claimant who desires to object to the proposed findings of water rights report shall file his objections with the court (Third Judicial District) within 60 days of the date of mailing of such report by the Director of the Department of Water Resources and shall also send a copy of such objections to the Director of the Department of Water Resources." Since this mailing constitutes your portion of the report, the 60-day period began with the date of postmark.

Copies of the entire Proposed Finding, including Findings of Fact and Conclusions of Law, are on file for your review at: the County Courthouses in Payette, Emmett, Cascade and Idaho City; the ASCS Offices in Payette, Emmett and Donnelly; the U. S. Post Offices in New Plymouth, Garden Valley and McCall; the schools in Horseshoe Bend and Sweet; various irrigation company offices; and at the Western Region Office of the Department of Water Resources. If you do not have access to these copies, and would like to review the report, please contact this office. If you have no objections, there is nothing more you need to do.

Sincerely,

DAVID B. SHAW
Western Region Supervisor

Dear Wateruser:

Enclosed is a preliminary finding of a water right you claimed within the Payette River Drainage Basin. We have reviewed the following claim and will recommend to the court that it be disallowed for the corresponding reason.

95-8490	GREENWELL, DON A. & GREENWELL, MAUDELON BOX 58, RUPERT, IDAHO 83350	NO BENEFICIAL USE FOUND—USE FORFEITED OR ABANDONED.
---------	---	---

info not exercised for 5 yrs
Physical diversion stop water tank
Where we have found your point of diversion outside the Payette Drainage, you may have a valid water right, but we cannot consider it as a Payette adjudication water right. For rights that are of a non-domestic use, you may wish to contact this office for further information about recording your right in the proper drainage basin. *dig out at your right*

If your claim is recommended as another right, you or your ditch company should have received a preliminary notice of the recommended right. Generally in other cases, we have found your claim invalid and will recommend to the court that your claim to this water right not be allowed.

This finding of your water right is preliminary, but if we receive no notification from you we will assume our finding is correct. If you feel we are in error, please notify this office by December 15, 1978.

Sincerely,

David R. Tuthill Jr.
