Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Tuesday, February 22, 2000, at 7:00 p.m. in the Music Room at Garden Valley High School, Garden Valley, Idaho.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

Barry Wood
Administrative District Judge and
Presiding Judge of the
Snake River Basin Adjudication

INSTRUCTIONS FOR COMPLETING THE NOTICE OF ERROR REPLY FORM

- Please review the preliminary recommendation carefully. Your name, water right number and address have been pre-printed on this reply for your convenience. Check to be sure the pre-printed information on this form is accurate.

- If you are a new owner and need to change the name on the enclosed preliminary recommendation, please use the form entitled "*Notice of Change of Water Right Ownership*". Please follow the instructions on that form carefully and provide the Department with the necessary documents as identified on that form.

- Please fill in your daytime and evening telephone numbers.

- If there is any portion of the preliminary recommendation which is inaccurate or with which you disagree, please complete item number 1, 2 and 3 on the reply, sign where indicated, and return the reply in the envelope provided to the Western Region. This reply must be mailed before March 3, 2000. If IDWR has questions about the information included in your reply, a staff member will be in contact with you to set up an appointment. You may also return the reply in person at the public meeting on February 22, 2000, at 7:00 p.m. in the Music Room at the Garden Valley High School, Garden Valley, Idaho.

- If you do not provide a reply, IDWR will submit the information contained in the enclosed preliminary recommendation as a Director's Report to the District Court. At that stage, making changes will require you to file court papers and attend court hearings.

- If you have questions or do not understand this process, please feel free to call the adjudication hotline toll free number: **1-800-451-4129** or contact the IDWR Western Regional Office, located at 2735 Airport Way, Boise, Idaho 83705, telephone number: **208-334-2190**.

BASIN 65 - PART II

BASIN 65 GENERAL PROVISIONS

The Director of the Idaho Department of Water Resources (IDWR) recommends to the Snake River Basin Adjudication (SRBA) District Court that the following general provisions be included in the decree determining rights to water from Basin 65:

- 1) The practice of diverting water during the pre-irrigation and post-irrigation season as well as diverting the so-called "high water" or, "flood water" in addition to the quantified rights described in the recommended decree of water rights (and future rights that may be established pursuant to statutory procedures) are allowed provided:
 - a) The water so diverted is applied to beneficial use.
 - b) The existing quantified rights (including future appropriations of water) are first satisfied.
- 2) The Sevenmile Slough is identified and treated for water delivery purposes as part of the main stem of the Payette River.
- 3) For purposes of water distribution in the Payette River Drainage Basin, surface water rights from the following sources, to the extent recommended herein, are not considered junior to water rights from the Payette River, and will be administered separately from all other water rights in Basin 65:
 - a) Big Willow Creek, tributary to Payette River, and tributaries,
 - b) Boulder Creek, tributary to Cascade Reservoir, and tributaries,
 - c) Campbell Creek, tributary to Cascade Reservoir, and tributaries,
 - d) Lake Fork Creek, tributary to Cascade Reservoir, and tributaries,
 - e) Little Willow Creek, tributary to Payette River, and tributaries,
 - f) Porter Creek, tributary to Payette River, and tributaries,
 - g) Richards Creek, tributary to South Fork Payette River, and tributaries,
 - h) Rock Creek (Richards Creek), tributary to Cascade Reservoir, and tributaries,
 - i) Scriber Creek, tributary to Middle Fork Payette River, and tributaries,
 - j) Squaw Creek, tributary to Payette River and tributaries,
 - k) Warm Springs Creek, tributary to Middle Fork Payette River, and tributaries,
 - l) Willow Creek, tributary to Cascade Reservoir, and tributaries.

SEE ATTACHMENT "A" FOR WATER RIGHT NUMBERS

- 4) The following water rights from the following sources of water in Basin 65 shall be administered separately from all other water rights in the Snake River Basin:

SOURCE
None

WATER RIGHT NUMBER:
None

- 5) All water rights within Basin 65 are from connected sources of water in the Snake River Basin and shall be administered conjunctively.

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in reviewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River Basin where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source is tributary is also shown.

Priority Date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to have their water rights satisfied before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made on the water, such as irrigation, domestic, or stockwater.

Period of Use: The period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation Uses: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes the other purposes of use.

Point of Diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 1/4 section or 1/64 section) within which the point of diversion is located.

"B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and redivision. Points of injection and redivision are indicated where water is diverted from one source, injected into another source, and then rediverted, or where water from one source is exchanged with water from another source.

Place of Use: The place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remarks, if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of Right: The basis of right may be a decree (where the water right was previously determined by a court); posted notice (an historical method of appropriation that is no longer available); beneficial use (another historical method of appropriation that is available today only in very limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).
