In regards to an existing Diversion of water from an unnamed stream, a tributary of Boulder Creek drainage, located on the Eastern most half of an 80 acre tract of land belonging to: Irene Jurva Heikkila. Due east of the end of east Finn Church Lane, in Valley County, state of Idaho, and commonly referred to as the "Wilson Dam" diversion. Which is listed on March 2, 1979 as page 543 of proposed finding of water rights - Payette River drainage and listed as Right # 65-5708, with priority date of 05/01/42.

Having been a neighboring land owner and having used water from the Boulder Creek irrigation District for many years, I am personally aware that the above named diversion of water has been used for irrigation and stock water on a yearly basis and mainly for the irrigation of the homesite and land now owned by: Jack M. and Doris P. Jeffries. Also, that the Jeffries' have built and developed a secondary pond with pump and sprinkler system. Plus maintaining a ditch and headgate to feed this System from the above diversion, during the period from August 5, 1971 to the present and that the Jeffries' have expended considerable efforts and expenses in building and maintaining this System over the last quarter of a century.

Dated this 12th day of July, 1997
at Donnelly, Idaho.

RE: Cindy Robinson visited the state office concerning Jack Jefferies diversion under this claim. Her statements indicate a storage element may have been added to this water right as well as a change of the point of diversion to the p/d for lapsed permit 65-7288. Mr. Jefferies has enlarged a pond on the Robinson's property, and added a pump to what had been a gravity system flowing through the pond. The Robinson's have obtained a permit (65-12838) to irrigate their land from the stream that was described in permit 65-7288. The application was taken because the data base did not show a water right with a p/d from the unnamed stream. The map prepared for the investigation of 65-5708 indicates the source was a different unnamed stream than what is presently used for right 65-5708B. Also, the sections numbers appear to have been transposed when the water right was recommended.

Re: Claim No. A65-05708B

Dear Mr. and Mrs. Jefferies:

I am in the process of reviewing water rights in your area. In looking at your right, A65-05708B, I came across a discrepancy. Your right is a split off of A65-05708, this right was decreed with a point of diversion (pod) in T17N, R04E, Sec 7 the NWSW - from an unnamed stream. You claimed the pod in Sec 7 NESESW. There are two options for changing a pod; 1) If you can submit evidence to verify the pod was changed prior to November 19, 1987, then it is considered an accomplished transfer, 2) If the change occurred after November 19, 1987, you need to file an application for transfer of the pod, this has a \$100 fee associated with it. Without a transfer in place the diversion is considered illegal.

Additionally you filed on 1 acre of irrigation in the NENW of Sec 18. The original right was never decreed with any acreage in the NENW, so I can only recommend the 10 acres filed on in the NWNW of Sec 18. To cover this additional acre, you may want to consider filing an application for permit.

I have enclosed a copy of this right as claimed, and as I will be recommending it. Also included is a map showing the 10 acres of irrigation and two points of diversion (one from the groundwater source listed on A5-08729). Please look over this information and get back to me by July 9, 1999 if you have questions or need additional forms.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Susan Bock'.

I HAVE SENT THE JEFFERIES A LETTER CONCERNING THEIR CLAIMED POD

Re: Claim No. A65-05708B

Dear Mr. and Mrs. Jefferies:

I am in the process of reviewing water rights in your area. In looking at your right, A65-05708B, I came across a discrepancy. Your right is a split off of A65-05708, this right was decreed with a point of diversion (pod) in T17N, R04E, Sec 7 the NWSW - from an unnamed stream. You claimed the pod in Sec 7 NESESW. There are two options for changing a pod; 1) If you can submit evidence to verify the pod was changed prior to November 19, 1987, then it is considered an accomplished transfer, 2) If the change occurred after November 19, 1987, you need to file an application for transfer of the pod, this has a \$100 fee associated with it. Without a transfer in place the diversion is considered illegal.

Additionally you filed on 1 acre of irrigation in the NENW of Sec 18. The original right was never decreed with any acreage in the NENW, so I can only recommend the 10 acres filed on in the NWNW of Sec 18. To cover this additional acre, you may want to consider filing an application for permit.

I have enclosed a copy of this right as claimed, and as I will be recommending it. Also included is a map showing the 10 acres of irrigation and two points of diversion (one from the groundwater source listed on A5-08729). Please look over this information and get back to me by July 9, 1999 if you have questions or need additional forms.

Sincerely,

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief
