DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

DATA COLLECTED BY:

Steve Latta

STREAM:

Peyette River

DIVERSION NAME:

Upper Aerial Ditch

POINT OF DIVERSION:

Lot 2 (SWNWSE) S.8 T7N R3W

ACCESS:

Falk Bridge - Bluff Road - locked gate on access road

USGS MAP:

Latta

(name)

W5

(number)

WATERMASTER CONTROL:

✓ Yes

No

W5 NW

(NAPP I.D. #)

DIVERSION DESCRIPTION:

Earth/gravel checkdam (same one as for
Lower Aerial Ditch - 65-05755 & 05759) & 30' channel from river
to concrete headwall & lockable headgate (metal). Buried culvert
from headgate to aerial ditch - culvert about 25' long.

MEASUREMENT:

No measuring device found so only partial water-
master control.

Could measure: 1) current meter (w/ no AA meter).

2) install flume (too flat for weir?).

CURRENT WATER RIGHTS:

65-05757 and 65-05758

Diagram shows all Aerial pl'ts: Upper & Lower ditches
plus 1 pump station (2 pumps):

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

May 23, 1995

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:
Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.
2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.
3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

claims a right to the diversion

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued) 4/1/1948 ✓
- (2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) _____

(2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) _____

~~Payette River~~

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
(Both Dates Inclusive)

(Both Dates Inclusive)

→ Use 1.58 Irrigation 356 AF Period of Use From 3/15 To 11/15
(Domestic, Irrigation, stock, etc.) (Mo., Day) (Mo., Day)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
(Both Dates Inclusive)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

- (4) Quantity of water claimed: 1.60 1.58 Cubic Feet Per Second, or 396 Acre Feet Per Annum,
and/or _____ Gals. Per Minute. Gov't Lt. 2

- (5) A) Point of Diversion: Give location of point where water is diverted from its source. NW $\frac{1}{4}$ SE $\frac{1}{4}$,
Sec. 8, Twp. 7N, Rge. 3W, B.M.; additional points: 4

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.)

Give sizes and capacities; be as specific as possible.

pump and gravity

- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

RE: Payette River Basin Adjudication
Claims #65-05755, 65-05756, 65-05757
65-05758 & 65-05759

Dear Mr. Acord:

Following my telephone conversation with Mike Raymond, Payette County District Conservationist for the ASCS, the engineering staff of the Adjudication Bureau has done a second analysis of your water rights with the results shown below. The method used to identify the influencing soils was to overlay the water right place of use with the Soil Survey published by the Soil Conservation Service. While the Notus soils were present as Mr. Raymond indicated, the Moulton soils remain predominant. As a result, the percentage change in the total proposed amounts of water was not great.

The revised proposed amounts are as follows:

<u>Water Right #</u>	<u>Diversion Rate</u>
65-05755	17.62
65-05756	3.18
65-05757	1.38
65-05758	6.85
65-05759	0.65

Mr. Raymond said there was nothing unusual about your irrigation methods or requirements as compared to other farms along the river. Correspondingly, no special requirements were used as factors in analyzing the extent of the water rights. If you still contest the amounts of water proposed above, I would suggest retaining competent assistance to compile a documented study of your irrigation requirements and the corresponding water rights. Please let me know as soon as possible the course you may be taking.

Of course, I remain available for questions and further discussion, if you wish.

Regards,

Donald V. Shaff

Manager, Adjudication Section

Re: Civil Case No. 3667 - Frasier, et al Objection #65-05756

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 1.84 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 3.08 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

Re: Civil Case No. 3667
Frasier, et al Objection 65-05756

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 1.84 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Donald V. Shaff
Manager, Adjudication Section

RE: 65-5755

Dear Mr. Acord:

The enclosed notice should have been sent to you in our bulk mailing, but the listing was inadvertently left off our mailing list labels. The new information you sent to us on December 12, 1985, will be incorporated into each of the water right files.

Regards,

DON SHAFF
Water Rights Supervisor

Re: Change of address

#'s 65-5755, 65-5756, 65-5757,
65-5758, 65-5759, 65-5760,
65-5761, 65-5762, 65-5763,
65-5764

Dear Mr. Noise:

Would you please change the address for the above referenced
claim numbers for water rights from 1900 West 3500 South
Salt Lake City, Utah 84119 to:

1021 West 4800 South
Murray, Utah 84123

Also, the name has changed from O. Thayne Acord to William T.
Acord.

Thank you.

Sincerely,

WILLIAM T. ACORD (9)
