DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

May 23, 1995

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:
Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.
2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.
3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

Re: Original Notice of Claim to a Water Right No. A65-05817.
Renumbered to Notice of Claim to a Water Right No. A65-05817A.

Boyd C Jackson &
Dolores E Jackson
2125 Killebrew Dr
Payette ID 83661

Dear Boyd and Dolores,

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by adding alpha suffixes to represent each split.

Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership.

Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

If you have any questions concerning this ownership change or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Ron Howerton

CUSTOMER

NAOMI CROCKETT

SUBJECT: DRAFT MAP

1. Faxed draft map to Naomi to see if I had the fields correctly identified per ASCS map.
2. She said I had her uncle's property & Peterson's just the opposite and needed to be switched.
3. I checked the warranty deed for Peterson's property and confirmed her observation.
4. The split for the 2 fields above then is based upon the written statement by her uncle, Boyd Jackson. His statement shows he had 7 acres remaining from a 10 acres total and Peterson was to get the remaining 3 acres.

Since the actual amount is less than 10 acres then converting the 10 acres to a ratio of actual irrigation of 7.4 acres is needed. This is found by dividing the actual 7.4 acre amount by the 10 acre amount assumed by Jackson. Thus the factor will be .74. The following amounts below will apply:

Recommended Acres:

Jackson Split..."A": $(7)(.74) = 5.18$ irrigated acres
Peterson Split..."B": $(3)(.74) = 2.22$ irrigated acres

5. I ended the conversation stating that the information now is clear and I could send all parties their copy of their portion from the original right.

MEMORANDUM

April 6, 1995

TO: A65-05817

FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

DON SHAFF

SUBJECT: A65-05817, BOYD JACKSON'S CLAIM/SPLIT NEW OWNERSHIPS

1. Sent mail message to Don about why an existing "R" file was already made and how I should proceed with spitting this claim.
2. Don called back and said that a stipulation has been made for this prior Payette Adjudication right. It was never decreed because it was originally protested.
3. Don said that the stipulation amends the Snake River Basin Adjudication Claim A65-05817 just the same as a Transfer would.
4. Don wanted me to send copies of all the ownership changes and any correspondence to him. He then would give these to Dan Steckel and request Dan to send me a copy of the stipulation.
5. When I receive the stipulation I could then use it to for the basis for splitting the "R" claim into the amended "A" claims by the stipulation.
6. Don also will fax me the map used for the basis of the "R" file for this claim.

Subj: BOYD JACKSON CLAIM A65-05817

Hi Don,

This one example of how ownership changes can get real complex...

I have received 2 ~~split~~ ownership changes on Boyd Jacksons claim which means this claim needs to be split 3 ways.

I started to split the claim when I noticed that you had made a "R" file on this claim already.

This claim apparently was one of those in which was protested in the Payette Decree.

My major question is what to do about the 3 way split? A, B & C.

If I split the "A" claim as claimed...I have these conflicts with the "R" recommendations...

"A" Claim has: .60 cfs claimed with 26 acres.

"R" Claim has: .78 cfs claimed with 23 acres. (increased cfs with less acres)

Another problem is that the claim was not claimed for the DOP as shown on our records. The claim showed 01/01/1940? Our records show 01/01/1901 and so does your "R" file. Thus, when I split the claim each would have a 1940 DOP on it.

A letter sent with each split claim explaining that the amounts of acres & cfs may not correctly reflect our findings and the letter could give them an option of amended their claim to the older DOP...?

Also Boyd Jackson has signed documents relating to the splits showing the amounts of irrigated acres he sold and the remaining he kept adding up to 26 acres:

"A" portion would be Boyd Jackson... 07 acres ⁵
"B" portion would be Crockett..... 16 acres ¹⁵
"C" portion would be Peterson..... 03 acres ³ (total of 26)

If I split the claim into the 3 portions they will be under-claimed as far as cfs and over claimed as far as amounts of acres, however the split of the claim can be accomplished if I do not consider that "R" file you have already made. If I split the "R" file I possibly could pro-rate the acres as stated in the documents by Boyd Jackson. But that may not accurately reflect the acres at all. It seems to me that this claim would have to be field examined again, one of the major problems with the ownership changes is that the legal descriptions from the warranty deeds are very vague...

Example: All that portion of Government Lot lying Northerly of the center line of an existing slough SAVE AND EXCEPT the East 503 feet thereof. (This is the reason Boyd Jackson wrote the additional documents stating how many irrigated acres he transfered in the sale for both parties)

Another problem would be what to do about the base claim "R" file. Normally after the A,B & C split we would make an "R" file of the base claim only until

the other portions could be investigated. The base claim "R" file would be made to show that it was split and in remarks to "See 65-05817A, 65-05817B & 65-05817C.

This seemed like a pretty big picture for me to try to explain over the phone so I tried to get all of the facts together on this mail message before we talked.

Please give me a call or send me a mail message on this when you can.

Thanks,

Ron Howerton

RE: Snake River Basin Adjudication (SRBA)
Payette County - A65-05817

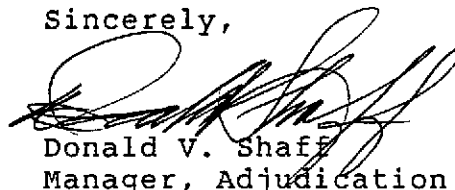

Dear Claimant:

The staff of this agency is coming to the end of investigating "bottom land" claims in the Payette River Adjudication. A matter possibly overlooked in the Snake River Basin Adjudication was a claim for the enclosed claim unsettled from the Payette action.

Before proceeding to the Gem County court with a revised recommendation, the claim in the SRBA should be filed to give affirmative notice you have not stopped using the water right. By filing the SRBA claim, your contested claim in the Payette adjudication will not be dismissed. Although the contest in the Payette adjudication is the amount of water, and this enclosed form shows the disputed amount of water, this agency will consider the amount of water eventually decreed as the amount of water on this claim. Please have a notary public verify your signature before returning the completed claim form to this office with a \$50.00 filing fee.

If you have any questions or concerns, please contact me.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section

Re: Civil Case No. 3667
Frasier, et al Objection 65-05817

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of .54 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

A handwritten signature in dark ink, appearing to read 'Donald V. Shaff'.

CONVERSATION MEMORANDUM

DATE 12/17/86FILE 65-5817NAME OF PARTY Berry D. Hollis - New owner Boyd JacksonEMPLOYEE John K. Noyes

RE: Two sites - A - 10 HP motor & sprinkler system
U.S. Electric motor - serial # 211201 - Jackson Pump -
Overgaw the following information about the
sprinkler system: 5/32 nozzles - 44 lbs - Model 20
35 PSI - 4" mainline & 4" laterals

5/32 nozzles @ 35 PSI = 4.10 GPM x 44 lbs = 180.4 GPM
180.4 x .002228 = .40 cfs No measurement made
of this system.

System B = 3 HP G.E. motor Model # 12F6341
8" penstock - gravity flow system - approx
10 ft lift.

Measured this system in a ditch north of
the house with a pygmy meter. Measurement
No. 1 was in an open ditch with flat banks - reading
could be a little high - No. 2 was in a concrete
check with only one reading - could be a little
low - average of the two readings is .66 cfs
Total cfs = .40 + .66 = 1.06 cfs for 29 acres. = 1.96
inches per acre. See attached printout for
measurement of system B

① System B

Re: #65-5817

Mr. Barry D. Hollis
1311 North 6th
Payette, Idaho 83661

Dear Mr. Hollis:

Please find the forms and information enclosed that you requested on January 28, 1977.

Changes have been suggested in red on a copy of the claim filed by Vernon Alexander. If you have different figures for Item 6, please feel free to make them. The amended claim will be your claim to a water right. A set of instructions is enclosed to assist you if the need arises. After the claim is complete, signed and notarized, return the white and yellow copies to us and you may keep the pink copy for your records.

Thank you for your cooperation in the adjudication. If we can be of any further assistance, please feel free to contact us.

Sincerely,

DONALD V. SHAFF
Water Resource Agent
