IN THE MATTER OF THE GENERAL	)	Civil Case No. 3667
DETERMINATION OF THE RIGHTS TO	)	
THE USE OF SURFACE AND GROUND	)	STIPULATION ADDING, AMENDING,
WATER OF THE PAYETTE RIVER	)	AND DELETING RECOMMENDATIONS
DRAINAGE.	)	FOR GOSLIN, KIENITZ,
	)	NEBEKER AND REKOW
	)	

R. Keith Higginson, Director of the Idaho Department of Water Resources, Walter and Josephine Nebeker, John H. and Karon S. Kienitz, T. Edwin and Ida Goslin, and Charles L. and Delma C. Rekow, enter into a stipulation resolving an oversight from the record before this court in the Payette Adjudication. This omission or oversight was initially addressed by a motion pursuant to Rule 60(a) filed with the court March 28, 1988.

As explained in the motion on file with the court, the land for which a claim was omitted by the oversight of the Idaho Department of Water Resources is presently farmed by Nebeker and Kienitz. Kienitz owns his land under a contract of sale from the Rekow.

Additional facts not contained in the original motion nor the affidavits which accompanied the motion are agreed to by the parties in this stipulation. Those facts include the following: the waste water rights which are affected by this stipulation are all for waste water from the Emmett Irrigation District. From a review of documents on file with the Idaho Department of Water Resources, the parties agree that the lands now owned or being purchased by Goslin, Nebeker, Rekow and Kienitz began irrigation with waste water (originating from the east side of Washington Street) in the 1920's. Specifically, it appears that the records of the Idaho Department of Water Resources support a priority date of April 1, 1926 for 65-1387A, 65-1387B, and 65-11415, and a priority date of 11-10-1929 for 65-2360. No other individuals are presently using this particular source of waste water. Goslin has two additional water rights (65-2838 and 65-2497) for waste water from this same area which have junior priority dates.

In the process of the negotiations leading to this stipulation, it became apparent that there were other clerical errors in rights for the same lands. Specifically, right 65-3842 originally decreed in the name of Beckman, is appurtenant to lands now owned by Rekow. Further, because part of the land under right 65-3842 is under contract of purchase with Kienitz, the right was split to 65-3842A and 65-3842B.

The changes to the water right claim numbers are reflected in the attached exhibit. Also, where these new claim numbers need to be listed as "Other Rights" where the land to which the

right is appurtenant is also covered by an additional water right, those changes are reflected in the exhibit.

There is a decreed licensed right, 65-2458, which is no longer in the listing of water rights accompanying this stipulation. Right 65-2458 was originally recommended for land that is now covered by 65-11415. The records in the license files at the Department of Water Resources provided evidence that the water use under 65-2458 arose earlier than the priority date indicated on the license. Thus, instead of licensed right 65-2458, beneficial use right 65-11415 is listed in the schedule accompanying this stipulation with a priority date of April 1, 1926. The rate of diversion for 65-11415 is 1.56 cfs, reflecting a clerical correction that only 78 acres can be irrigated from this diversion. Originally, 65-2458 listed a diversion rate of 1.74 cfs for 87 irrigated acres. The points of diversion and places of use are unchanged except for clerical corrections which are indicated.

An additional decreed licensed right 65-2360 is listed with reduced acreage in the attached schedule of rights. The records in the license files at the Department of Water Resources provided evidence that water use on some acres under 65-2360 began earlier than the date on the license. Therefore, 63 acres previously listed with 65-2360 are now listed with 65-1387A in the schedule of rights accompanying this stipulation.

Edwin Goslin and Ida Goslin, and Charles L. Rekow and Delma C. Rekow has been filed with the court. Attached to that stipulation is a listing of water rights. Exhibit A attached to this order is the stipulation with the listing of water rights. Since identical stipulations were separately signed by the parties, the stipulation attached as Exhibit A shows only the signature of one of the parties, the Goslins.

rights for the Payette River Drainage Basin. The need for amendments was initially addressed by a motion pursuant to Rule 60(a) of the Idaho Rules of Civil Procedure to correct an omission made by the Idaho Department of Water Resources. That motion was filed March 28, 1988 with the court. Additional corrections have been identified by the parties since that time. Now, by stipulation of the affected parties, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the decree of water rights for the Payette River Drainage Basin be amended as follows:

1. Water right 65-3842 is replaced by two new water rights known as 65-3842A and 65-3842B, as listed in Exhibit A.
2. Water right 65-2360 is replaced in part by a new water right, 65-1387A, listed in Exhibit A; the remaining portion of 65-2360 is shown as amended in Exhibit A.
3. Water right 65-1387B is a new water right listed in Exhibit A; 65-1387B was not previously listed in the water rights for the Payette River drainage basin.
4. Water right 65-2458 is replaced by a new water right, 65-11415, as listed in Exhibit A. Also, of nine acres originally listed with 65-2458, six acres are now shown with 65-2497 and three acres are shown with 65-2838, as listed in Exhibit A.
5. Water right 65-2497 is unchanged except for minor amendments listed in Exhibit A.
6. Water right 65-1390 is unchanged except for minor amendments listed in Exhibit A.
7. Water right 65-2838 as listed in Exhibit A is unchanged except for minor amendments.
8. Water right 65-1393 as listed in Exhibit A is unchanged except for minor amendments.
9. Water right 65-2895 is listed in Exhibit A as licensed subsequent to the filing of the proposed finding of water rights for the Payette River drainage basin.

10. Water right 65-7062 as listed in Exhibit A is unchanged except for minor amendments.

The specific changes accomplished by this Order are more fully set forth in the listing of the water rights accompanying the stipulation, all attached as Exhibit A and that exhibit is incorporated as if fully set forth herein. The exhibit comprises eleven pages.

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
