APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 40673

Permit No. 33634

District No.

Dec. 13 1965
U.S. DEPARTMENT OF RECLAMATION

1. Name of Applicant: BLACK CANYON IRRIGATION DISTRICT

Post Office address: Notus County: Canyon State: Idaho

If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

Harold R. Iverson, President, Rt. 1, Caldwell,

Roy L. Miller, Rt. 1, Parma, Robert A. Goodell, Rt. 1, Caldwell, John T. Ray,

Rt. 1, New Plymouth, Idaho, Gerald G. Talbot, 1824 South Kimball, Caldwell, Idaho

The financial resources of the applicant are: (a) Cash on hand: \$ 149,434.57 (as of 7/30/65)

Equipment Fund - \$ 42,303.32

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: \$ 170,250.00 in our Contingent Reserve Fund which includes Series B

Bonds and Investments in U.S. Treasury Notes and Bills

2. Quantity of water claimed: one hundred cubic feet per second

3. Source of water supply: Tunnel No. 2, Black Canyon Irrigation Dist. Drain and
all tributaries

which is tributary of

4. Location of point of diversion: 1000 S. & 610 W. feet distant from the NE corner

of Section 20, Twp. 6 N. Rge. 2 W. B. M., and is in the NE 1/4 NE 1/4

of Section 20, Twp. 6 N. Rge. 2 W. B. M., County of Gem

Point of discharge at Station 799 77.0 Main Canal, Black Canyon Irrigation District

5. Water is to be used for: irrigation

6. If for any non-irrigation purpose, give:

(a) Point of use of water: feet distant from corner of Section

Twp. , Rge. , B. M., in the of Section , Twp. , Rge. , B. M.

(b) Amount of power generated: H. P., under feet head

(c) Water is to be returned to at a point feet

distant from the corner of Section , Twp. , Rge. , B. M., in the

 of Section , Twp. , Rge. , B. M.

7. Estimated cost of works: \$ 280,000

8. Kind of works: Pumping plant, ditch and pipe
(Reservoir, dam, ditch, flume, pipe, etc.)

9. Height of dam feet; length of dam at top feet; length of dam at bottom feet;

material used in dam

(If height of dam will exceed 10 feet or wall show more than 100 acres feet of water, send to Department of Reclamation for Regulations.)

10. Size of headgate: Width feet; Height feet

11. Ditch: Width at bottom 10 feet; Width at water line 35 feet; Depth of water 4 feet;

Dimensions of flume none; Diameter of pipe 48 inches;

Length of conduit 1500 feet; Average grade per mile feet.

16. (a) Is reservoir to be used? No (If so, fill in (b) and (c) below.)

(b) Name of reservoir and number of Storage Permit: _____

(c) Date of filing of Application for Storage Permit and Name of Applicant: _____

Remarks: _____

From: Bec H.

Fax No.: _____

Phone No.: 327-7881

Subject: Ron- just FYI.

In Addition: There is now a way to research water rights over the Internet. The system is a graphical or text query system and can be accessed from the IDWR home page:

<http://www.idwr.state.id.us>

From that link, select "Snake River Basin Adjudication" toward the lower left hand of the screen. Then select "Map" or "Text" on the next page.

"TEXT" lets you search water rights via Name, Legal, Source, etc.

Enter in the information you know. Information can be entered under more than one tab. After you have completed entering your information, select "Search"

"MAP" allows you to search water rights graphically.

Use the tools on the Left side of the screen to Zoom in and out. To find out what each button does, hold the cursor over the button for a second. To the Right side of the screen are different layers that can be turned on or off. As you zoom in to your place in question, different layers will appear on the right side of the screen.

A HELP function is available within the application or you can call 1-800-451-4129 or (208)327-7906 for help.

OBJECTION**

Please fill in the following information:

B. NAME AND ADDRESS OF PERSON OBJECTINGName: Chas. F. McDevittAddress: McDevitt & Miller LLPPO Box 2564, Boise, Idaho 83701Daytime Phone: 208.343.7500

Name & Address of Attorney, if any:

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORTName: Black Canyon Irrigation DistrictAddress: PO Box 226Notus, Idaho 83656

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ Name and Address
Should be: _____
2. ☐ Source
Should be: _____
3. ☐ Quantity
Should be: _____
4. ☐ Priority Date
Should be: _____
5. ☐ Point(s) of Diversion
Should be: _____
6. ☐ Instream Flow Description
Should be: _____
7. ☐ Purpose(s) of Use
Should be: _____
8. ☐ Period of Year
Should be: _____
9. ☒ Place of Use
Should be: Right should be limited to irrigation of
53,200 acres.

11. I object because:

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): _____

Contract with Bureau of Reclamation which this right was
obtained to supply water under is for 53,200 acres.

F. VERIFICATION (Must be Completed)

State of IDAHO)

NOTICE OF ERROR NOS:
65-2900 & 65-2433C

Ref: Notice of Error Reply

Dear Chas F. McDevitt,

1. Enclosed are copies of the above referenced recommendations, which reflect our modifications per your Notice of Error.
2. The Black Canyon recommendation for 65-2900 reflects the Notice of error change referenced to claim 65-2433C, for the combined total acres of 53,200. The License (enclosed) gives the right 51,332 acres. The Snake River Basin Adjudication recommendation allows 51,332 acres to be irrigated within the boundaries of the Black Canyon Irrigation District.
3. The recommendation for 65-2433C was recommended as right 65-2433 to the Bureau of Reclamation. See enclosed copies.
4. If you have any questions concerning this letter, please feel free to contact me.

Sincerely,

Ron Howerton

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

“When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season.”

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

Enclosed please find the boundary and/or service area IDWR has on file for your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any additional information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to modify the outlines of the boundary and/or service area we have enclosed, and return a copy to us.

Please return your modified boundary and/or service area information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest

Subject: Snake River Basin Adjudication (SRBA) Mapping Process for Proof of Beneficial
For Black Canyon Irrigation District's Water Right Claims

Dear Mr. Orr:

1. Pursuant to our conversation last week at the Idaho Water Users Association, this letter confirms our understanding of the process that we will follow for Phase 1 of the water right mapping for Black Canyon Irrigation District (District). We also hope to answer some of your questions that you relayed through Ruth Page to me that relating to the District's water rights.

2. As I mentioned to you, the water right mapping will be divided into two distinct phases. Phase 1 will secure the necessary documentation to establish beneficial use for the SRBA as of 1987, the date the SRBA was commenced. Phase 2 will be the process the District and its Board of Director's may choose to begin after Phase 1 is completed and which would bring the District's water rights maps and computer files up-to-date. Phase 2 would be initiated only after further discussion and agreement by the District and Bureau of Reclamation (BOR). Also, the District's contract may need to be reconciled with the adjudicated water rights, depending upon what we find after the mapping effort has occurred and after the SRBA court has entered its partial decrees since any of our work may be challenged or may change through the adjudication. Therefore, this effort should occur, if necessary, before or concurrently with the Phase 2 process.

3. The Phase 1 process we have negotiated to date is as follows:

a. The Snake River Area Office employees, specifically, Irene Collins and Claudia Coleman, with oversight and help as needed from Ruth Page, Water Rights Specialist from the PN Regional Office, will make the first draft cut of mapping the District's water rights. This means:

(1) BOR will use the official boundary listing dated 12 September (1910) and plat maps to record a clear film overlay of the District's original water rights.

(2) Then, using IDWR's (Idaho Department of Water Resource) 1987 aerial photographs, BOR will attempt to reconcile and stretch the historical project water rights to current irrigation uses by: 1) indicating the official District boundaries, 2) determining the irrigated lands in 1987, and 3) subtracting

off houses, outbuildings, equipment storage yards, ponds, roads, laterals, canal seepage, etc., from areas previously determined as irrigated.

(3) Irrigated acreage will be electronically digitized in a rough estimate.

(4) In addition, BOR will identify other uses of project water, if any, in order to assure that those uses, if legally possible, receive a water right either through the adjudication or through a permit commenced with IDWR, i.e., drainage rights, municipal uses, etc.

(5) Upon completion of this draft mapping, BOR officials, the Board of Directors and the District Manager will meet to discuss any issues that have arisen and to determine whether to address these types of issues in the SRBA or through a separate process. We recognize that the draft mapping will be a conservative straw ballot of what occurred on the ground, but it should be able to guide us in determining how to evaluate possible water right issues (if any have arisen).

b. BOR employees and the District's employee(s) will then fine tune the mapping as necessary through the decisions made by the Board of Directors and BOR. BOR employees and the District's employee(s) will reevaluate each parcel to determine discrepancies.

c. BOR and the District's Board of Directors will hold a meeting, the time to be determined, to educate their patrons on this process and on the adjudication itself.

d. The District's landholders will be invited to confirm, change or deny the maps and to sign affidavits as necessary of the beneficial use of their irrigation water rights.

e. The BOR and the District's employees will conduct a field investigation for any water rights that are not confirmed by the landholders.

f. BOR will pay to have the clear film reproductions of the maps converted into a computer data base.

g. BOR and the District will work with IDWR as needed throughout this process but will forward a complete and final set of information on its water rights to IDWR only after the mapping is confirmed and validated by the District and its landholders.

h. Once recommended by IDWR's Director, BOR and the District will then defend its water right mapping work in the adjudication if it is challenged. This may require that whomever confirmed the water rights work be available to testify in any contested case proceeding, i.e., landholder, District employees, and BOR employees.

4. The above process would complete Phase 1. As outlined, this process should result in a viable and defensible product that will set the stage for Phase 2 (current date irrigation).

5. However, there were still several other unanswered questions about the SRBA for which you requested a written response. Your question (Q) and our response (A) follows:

a. Q. What will or will not be used from the Payette Decree?

A. Whether or not and to what extent the Payette Decree will affect the claims for beneficial use of the District will not be determined until after the State's Director Report has been issued. However, we believe that the Payette's Decree of irrigated acreage of 57,020 should be upheld and would be recommended as the ceiling on the irrigation water rights within the District's boundaries (as recorded in the county land records and as accepted by BOR).

b. Q. What will be the duty of water under the SRBA?

A. The duty of water will be set at a later time by the court as recommended by IDWR.

c. Q. How can the District handle the various "classes" of lands?

A. We feel that the various classes of lands may be able to be handled differently under a new contract (yet to be entered) depending upon whether they receive project water, return flows, or some other distinguishable facts.

d. Q. Why can't the original water right acres be kept and mapped?

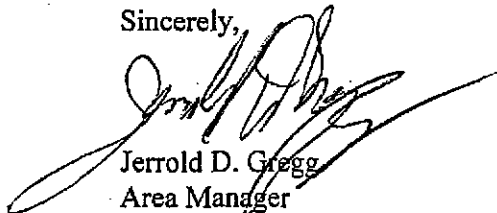

A. We will attempt to map the original acres as closely as possible if that was what occurred through the irrigation practices in 1987 as required by the adjudication statutes.

e. Q. What is the District's financial responsibility in the beneficial use proof mapping process?

A. BOR will assume a large portion of the costs of the first part of Phase I and to ultimately reduce the water rights to a computer program. However, we will need District personnel's staff time to help us identify deficiencies, make corrections and to conduct field reviews if landholders choose not to participate in the affidavit process. This part of the process could still be seen as a substantial expense. However, it is a necessary expense and the best way to proceed in order to defend the District's water rights in the adjudication and thereafter.

6. If you have further questions, please feel free to let me know.

Sincerely,

Jerrold D. Gregg

Subject: Black Canyon Irrigation District Boundaries

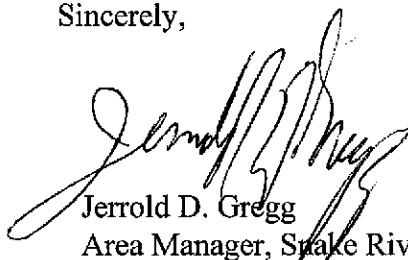

Dear Mr. Norquest:

As requested in your letter to the Black Canyon Irrigation District (BCID) dated January 11, 2000, BCID and the Bureau of Reclamation (Reclamation) have reviewed the boundary map sent to the district and have made several adjustments and corrections. We have identified the approved district boundary on the map that you sent the district; however, due to the number of corrected mistakes on the original map and in view of the potential for error in entering the aliquot parts descriptions on the GIS map, we propose to work directly with the Department staff to enter the description into the GIS system.

Accordingly, Ruth Page of Reclamation's Pacific Northwest Regional Office has arranged to work with Mark Larson identifying the boundary while Mark enters it into the data base.

We apologize for the delay, but look forward to working with your staff to accomplish this task.

Sincerely,

Jerrold D. Gregg
Area Manager, Snake River Area Office

WATER RIGHT LICENSE

License of Water Right No. 65-2900 Priority September 13, 1965 Amount 75.6 cfs

THIS IS TO CERTIFY, that Black Canyon Irrigation District
of Notus, Idaho, has complied with the terms and conditions of Permit
No. 65-2900 issued pursuant to Application for Permit dated September 13, 1965
and has submitted proof to the Department of Water Resources on February 23, 1977
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 75.6 cfs of water from Tunnel No. 2 Wasteway
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>May 15</u> to <u>September 1</u>	at <u>75.6</u> cfs and	<u>16344.8</u> acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 75.6 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
16344.8 acre feet per year, said waters to be diverted within the NW 1/4, Section 20, Twp.
6N, Rge. 2W in the County of Gem

claims a right to the diversion

The extent and nature of said claim is as follows:

- | | | |
|------|-------------------------------------|---|
| 2500 | Use <u>Irrigation</u> | Period of Use From <u>March 28</u> To <u>October 15</u> |
| | (Domestic, irrigation, stock, etc.) | (Mo., Day) (Mo., Day)
(Both Dates Inclusive) |
| | Use _____ | Period of Use From _____ To _____ |
| | (Domestic, irrigation, stock, etc.) | (Mo., Day) (Mo., Day)
(Both Dates Inclusive) |
| | Use _____ | Period of Use From _____ To _____ |
| | (Domestic, irrigation, stock, etc.) | (Mo., Day) (Mo., Day)
(Both Dates Inclusive) |

- (4) Quantity of water claimed: 100 Cubic Feet Per Second, or _____ Acre Feet Per Annum,
and/or _____ Gals. Per Minute.
- (5) A) Point of Diversion: Give location of point where water is diverted from its source NE % NW %,
Sec. 20, Twp. 6 North, Rge. 2 West, B.M.: ~~XXXXXXXXXX~~ Gam Co., 1000', Sec. 2
610' West of NE corner, Sec. 20; Discharge Pt. Sta. 799+77.0 Main Canal BCID
B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.)
Give sizes and capacities; be as specific as possible. Pumping Plant with 3 Pumps (Cap. 35 cfs each)
Ditch and 1500' of 48" pipeline. Works completed 7-68, went into operation
7-16-68, used during 1968 and 1969 season.
- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for
irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE¼				NW¼				SW¼				SE¼				TOTAL
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
			Lands located within the boundaries of the second unit of Black Canyon Irrigation District and situated in Canyon, Gem and Payette Counties, Idaho. Consists of 53,800 acres of authorized irrigated lands within 54,887.9 acres. Lands more particularly described in the attached schedules.																

Total No. of acres ~~57,000~~

B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

57,020

- (7) Effluent, sewage waste, or return water from this use is discharged into _____
- (8) If you are claiming water as a member of an organization, list name of organization _____ Black Canyon Irrigation District
- (9) Remarks This is application for supplemental water used by second unit, BGID according to Permit #18720. Note: Necessary because b.d. is outside district bounds
(This at water combined with 65-2433 still provide no more than 4.5 cfs/acre)
- (10) Basis of claim (Check one) ☐ A) Right based on diversion and beneficial use.
☐ B) Right decreed by court, cite title of case _____

(Place of use within lands of
Black Canyon Irrigation
District. See 65-2433

✓ C) Right based on application, license, or claim filed with State Reclamation Engineer, Office No. 10673 now pending. copy attached.

1. Name of Applicant: BLACK CANYON IRRIGATION DISTRICT
- Post Office address: NOTUS County: Canyon State: Idaho
- If applicant is a corporation, give:
- (a) Date and place of incorporation: _____
- (b) Amount of Capital stock: \$ _____ (c) Amount paid in: \$ _____
- (d) Names and addresses of directors: Harold R. Iverson, President, Rt. 1, Caldwell,
by I. Miller, Rt. 1, Parma, Robert A. Goodell, Rt. 1, Caldwell, John T. Ray,
by I. New Plymouth, Idaho, Gerald O. Talbot, 1820 South Kimball, Caldwell, Idaho
- The financial resources of the applicant are: (a) Cash on hand: \$149,434.57 (as of 7/30/65)
Equipment Fund - \$42,303.32
- (b) Treasury stock: _____ (c) Bonds to be issued: _____
- (d) Other resources: \$170,259.00 in our Contingent Reserve Fund w/ie includes Series B
Bonds and Investments in U.S. Treasury Notes and Bills
2. Quantity of water claimed: one hundred cubic feet per second
3. Source of water supply: Tunnel No. 2, Black Canyon Irrigation Dist. Drain and
all tributaries
- which is tributary of _____
4. Location of point of diversion: 1000 S & 610 W feet distant from the NE corner
of Section 20 Twp. 6 N. Rge. 2 W B. M. and is in the NE 1/4 NE 1/4
of Section 20 Twp. 6 N. Rge. 2 W B. M. County of Gem
- Point of discharge at Station 799 77.0 Main Canal, Black Canyon Irrigation District
5. Water is to be used for: irrigation
6. If for any non-irrigation purpose, give:
- (a) Point of use of water: _____ feet distant from _____ corner of Section _____
Twp. _____ Rge. _____ B. M. in the _____ of Section _____ Twp. _____ Rge. _____ B. M.
- (b) Amount of power generated: _____ H. P. under _____ feet head
- (c) Water is to be returned to _____ at a point _____ feet
distant from the _____ corner of Section _____ Twp. _____ Rge. _____ B. M. in the
_____ of Section _____ Twp. _____ Rge. _____ B. M.
7. Estimated cost of works: \$ 280,000
8. Kind of works: Pumping plant, ditch and pipe
(Reservoir, dam, ditch, flume, pipe, etc.)
9. Height of dam _____ feet; length of dam at top _____ feet; length of dam at bottom _____ feet; material used in dam _____
(If height of dam will exceed 10 feet or will store more than ten acre feet of water, send to Department of Reclamation for Regulations.)
10. Size of headgate: Width _____ feet; Height _____ feet
11. Ditch: Width at bottom 10 feet; Width at water line 35 feet; Depth of water 4 feet
- Dimensions of flume none Diameter of pipe 48 inches
- Length of conduit 1500 feet _____ Average grade per mile _____ feet

(c) Date of filing of Application for Storage Permit and Name of Applicant:

Remarks:

BE IT KNOWN That the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
