DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. To have a timely filing you must file this claim with IDWR by May 25, 2001. IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

RECEIVED
JAN 4 1979

IN THE MATTER OF THE GENERAL DETERMINATION OF RIGHTS TO THE USE OF

Payette River

DRAINAGE BASIN

NOTICE OF CLAIM TO A WATER RIGHT

I.D. No. Department of Water Resources
Western Regional Office
Fee Paid Receipt No.

Notice is hereby given that United States of America, Pacific Northwest Region,
Bureau of Reclamation, (Name of Claimant)
Attn: Box 043-550 West Fort Street, Boise, ID 83724 Telephone No.
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or priority date of decree, licensed, or permit right)
6/1/1894
- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Rock Creek (Richards Creek) tributary to Cascade Reservoir
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
Quantity 4 Use Irrigation Period of Use From 4/15 To 10/15
(CFS, GPD, AF) (Domestic, Irrigation, stock, etc.) (Mo., Day) (Both dates inclusive)
- Quantity Use Period of Use From To
(CFS, GPD, AF) (Domestic, Irrigation, stock, etc.) (Mo., Day) (Both dates inclusive)
- Quantity Use Period of Use From To
(CFS, GPD, AF) (Domestic, Irrigation, stock, etc.) (Mo., Day) (Both dates inclusive)
- Quantity Use Period of Use From To
(CFS, GPD, AF) (Domestic, Irrigation, stock, etc.) (Mo., Day) (Both dates inclusive)
- (4) 4 TOTAL QUANTITY CLAIMED
(CFS, GPD, AF)

- (5) A) Point of Diversion: Give location of point where water is diverted from its source NE SE
Sec. 3 Twp. 13N Rge. 3E B.M. VALLEY County
Additional Points:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTAL
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
13N	3E	2																	13

Total no. of acres 13

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

NOTE: Include here the type and number of stock watered:

- (7) If you are claiming water as a member of an organization, list name of organization:

- (8) Remarks

- (9) Basis of claim (Check one) ☐ A) Right based on diversion and beneficial use

- ☒ EXB) Right decreed by court, cite title of case, Allen vs Withers

- ☐ C) Right based on application, permit, license, or previous statutory claim filed with the Idaho Department of Water Resources. Give No.

Be it known that the undersigned, after being duly sworn on oath, depose(s) and say(s) that all statements included herein are true and accurate to the best of (his, her, their) knowledge.

FINDINGS OF FACT

4) There exist numerous separate decrees on the tributaries of the Payette River which adjudicate the various priorities to the use of the water on those tributaries. Diversion and beneficial use of water on these decreed tributary streams has in the past been without regard for uses or rights claimed on the Payette River proper, and users on the Payette River proper have made no demand on these tributary streams for water to fill prior rights on the main stem.

5) The present use of water under previously decreed rights in the Payette River Drainage Basin was found, in many cases, to be different from the use as described in the original decrees. Changes in place of use or point of diversion, apparent errors in the original decrees, abandonment or forfeiture of use, and the updating and improvement of irrigation systems through the years are some of the reasons for recommendations of decreed rights different from the original decrees.

6) Beneficial use rights from surface water sources are those rights which were commenced by diversion and application of the water to a beneficial use prior to May 20, 1971. Beneficial use rights from groundwater sources are those which were commenced by diversion and application of the water to a beneficial use prior to March 25, 1963. All other rights to the use of water must have been initiated by an application filed with the Department, or a prior decree. The only exceptions are groundwater uses for domestic purposes, and federal reserved rights necessary to preserve timber or to secure favorable water flows. Permits and licenses herein are updated as of December 1, 1978.

7) Some water rights recommended herein were initiated by application and permit from the Department. These permit rights are not decreed herein, but are subject to the requirement that proof of beneficial use of the water must be submitted to the Department and each right will be limited to and confirmed by such license as may subsequently be issued by the Department.

8) The consumptive use of water for irrigation purposes was found to be dependent upon location within the basin, and varies from 2.0 AFA to 3.0 AFA per acre as shown in Figure 2. [Reference: Sutter, R.J. and G.L. Corey, 1970, *Consumptive Irrigation Requirements for Crops in Idaho*, University of Idaho Agricultural Experiment Station Bull. 516.]

9) The existing water rights in the Payette River Drainage Basin were found to be in most cases based on .02 CFS (one miner's inch) per acre in addition to a rate to compensate for delivery losses.

10) The irrigation season is found to be dependent upon location within the basin. As shown in Figure 2, the three seasons consist of: 184 days (April 15 through October 15), 215 days (April 1 through November 1), and 246 days (March 15 through November 15). [Reference: Stevlingson, David J., and Dale O. Everson, *Spring and Fall Freezing Temperatures in Idaho*, University of Idaho Agricultural Experiment Station Bull. 494.]

11) The amount of water required for stock watering purposes is found to be 12 gallons of water per day per head for range cattle and horses, 35 gallons per day for dairy cattle, and 2 gallons per day per head for sheep. For domestic or household use, the average requirement is 1,000 gallons of water per day per household. [Reference: U.S. Environmental Protection Agency, 1974, *Manual of Individual Water Supply Systems*.]
