Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

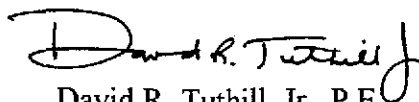

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.

RE: Split of Snake River Basin Adjudication Claims for Right No. 65-03803

Dear Jeff:

Enclosed is information concerning portions of decreed right no. 65-03803 claimed under three ownerships in the Snake River Basin Adjudication (SRBA). You will find the following information: a copy of the decreed right issued by the court, copies of the split portions claimed by the three owners, and a map showing the number of acres that can be irrigated per quarter-quarter (1/4-1/4) for each claim filed by the owners. There is no significance in the location of the acreage number within a 1/4-1/4 - that number of acres can be irrigated within the appropriate 1/4-1/4 per irrigation season.

You asked several questions during our recent telephone conversation. I hope the following answers are useful.

1. The decreed right allows .0228 cfs/acre or 1.14 miners inches/acre. It appears that ditch loss was included in the decreed right. Each SRBA claim includes the pro-rata share of water, 1.14 inches/acre.
2. The total amount of water and total acres shown in the decreed right are now claimed by three owners as follows: claim no. A65-03803B, Double Diamond, 3.97 cfs for 174 acres; claim no. A65-03803C, Dobson-Oliver, 1.92 cfs for 84.3 acres; and claim no. A65-03803D, Jeff and Teresa Dooms, .34 cfs for 14.7 acres.
3. The point(s) of diversion is that point(s) on Hill Creek where a diversion originates. Subsequent ditches from a ditch starting at the creek are not diversion points.
4. The use of ditches to convey water is a private property question. Generally, water rights by themselves do not convey right-of-way across private property. It may be possible that older ditches, such as those included in the Payette Decree, include prescriptive easements or other related right-of-way appurtenances. However, easement questions are civil matters best handled by legal counsel. I do not have any information to confirm or deny the existence of an easement in your case.

5. Forfeiture or abandonment of part or all of a water right may occur due to lack of use of the right for five or more consecutive years. However, loss of a right is not an automatic function under the statutes. The statutes define the basis for forfeiture or abandonment. Additional action is needed to actually establish that part or all of a right is lost due to non-use.

For a decreed right such as 65-03803, and thus for the three claims, this loss can occur in one of two ways. One, an owner may file a Transfer (change) Application with this department to change the right. If convincing evidence is found in the transfer process to show that forfeiture/abandonment occurred, the department is obligated to rule that a partial or complete loss of the right has occurred. Splits of rights or changes in ownership are not transfers of rights as used in this discussion. Secondly, a court can rule that a loss has occurred. The SRBA claims will eventually be ruled upon by the court in the current adjudication process, and the possibility of forfeiture or abandonment could be raised if sufficient evidence emerges in the process.

If you need other information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Lester".
