Mr. Eld:

Enclosed is an amended claim 65-02109. This claim adds 35 acres of irrigation to Sec 7 NWSW, as decreed in the Payette River Basin Adjudication. This claim also changes the point of diversion from the SENE of Sec 7 to the SWNE of Sec 7. If the claim is correct please sign in front of a notary and return to me by June 30, 1999.

I have also included a map showing the place of use and point of diversion. Look this over and make any necessary changes.

Additionally, would you provide me with some information on claim no. 65-04026? This claim states that water is exchanged with Roseberry Irrigation District. I have been unable to talk with Sandy Leford, Roseberry Irrigation District's Secretary, regarding this and other exchanges. This claim shows the point of diversion in T16N, R03E, Sec2 SENE from Boulder Creek. If this water is exchanged with Roseberry, I need to have an understanding of how the exchange works. Is the Boulder Creek water dumped into the Roseberry Canal, and if so at what point? Where is the water diverted from the canal for use on the property in Sec 18? I have enclosed a topographic map, and would appreciate if you could mark these points of diversion and re-diversion for me.

Thank you for your assistance. If you have any questions please call me as soon as possible.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Susan Bock'.

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

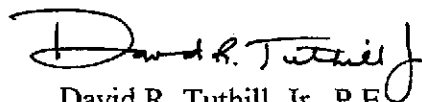

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief
