INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

MEMORANDUM

August 27, 1999

RECEIVED
SEP 20 1999
WATER RESOURCES
WESTERN REGION

TO: LBJones
FROM: TJTurner
RE: WOLFE / LODGE WATER RIGHTS

I've spoken with the SRBA clerk and Danni Smith at IDWR and have clarified the status of Lodge's water rights.

All three claims are valid: 65-08482, 65-07417, and 65-03181. The first claim is the domestic use which has been partially decreed by the SRBA. The other two are irrigation claims which have not yet been filed by IDWR with the SRBA. Apparently, the irrigation claims are the "tough" claims to adjudicate, so IDWR is conducting its own work on these claims before reporting them to the SRBA. That is why they do not show up in the SRBA – the State has not yet reported them. They should be reported by early next year. Meanwhile, the claims are valid and protected, and nothing else needs to be done regarding the adjudication since the matter is in the IDWR's domain.

After our transaction closes, we should file the IDWR Change of Ownership report with a copy of the conveyance deed and map. IDWR will then change their records to reflect the new owner and continue reporting in the adjudication as always. If the claims have been reported before our change of ownership, we must still file the report with the IDWR, and they will carry it forward to the SRBA.

I also discovered that we have dial-in modem access to the IDWR computer system records. We already have an account established, but I need the user ID and password. Then I can access the same information the State has on any water rights with access by legal description or claim number. This will save us much time and trouble in the future! I'll speak to Tess about it.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

2. Describe the changes you wish to make in the proposed recommendation:

3. Give a brief explanation as to why you ^{do} disagree with these portions:

As discussed with the DWR, the 300 acre and 6.0 cfs limits on water rights 65-07417, 65-03181, and 65-02371 eliminate overlap across the three permits and reflect the .02 cfs/acre limit on the water rights as claimed. The changed point of diversion (from SENW to NESWNW) merely corrects an error in listing the Spinks Ditch diversion, made in the prior Payette Adjudication. These are not substantive changes in the actual water rights as claimed. Thus, I agree with the proposed recommendations.

☒ I AGREE with this proposed recommendation; no changes need to be made.
