

IN THE MATTER OF:

AFFIDAVIT

State of Idaho
County of Valley

FRANK D. CALLENDER

being first duly sworn,

deposes and says: He bought the ranch from Horace Patterson in 1918. He continued to use and increased the use of river water.

He continued to use 150 inches of river water on the river bottom lands. In 1957 he installed a 10 horsepower pump in the ditch originating from the Idaho Power Penstock. This pump is located near the turn off onto the Warm Road from Highway #55. This pump pushes about 100 inches of water under the Warm Lake Road and irrigates 240 acres.

In 1962 he installed a 40 horsepower pump in the same ditch mentioned above that originates from the Idaho Power redwood penstocks. This pump is about 600 feet from the origin of the ditch and just 100 feet before the ditch crosses highway #55. About 300 inches of water is raised 10 feet to a ditch between the two U. P. Railroad Tracts. This ditch flows north and irrigates about 600 acres. He used this water in 1962 and 1963 beneficially to capacity until he sold the ranch to Lee Dahl in January 1964. Dahl used the water in 1964 and 1965. John Stringer rented the ranch in 1966 and Calleynder and Davis rented the ranch from American National Insurance Company in 1967 and used the water to full capacity. The ranch was bought in 1967 by Tom Davis and he continued to use the water to full capacity in 1968 and 1969.

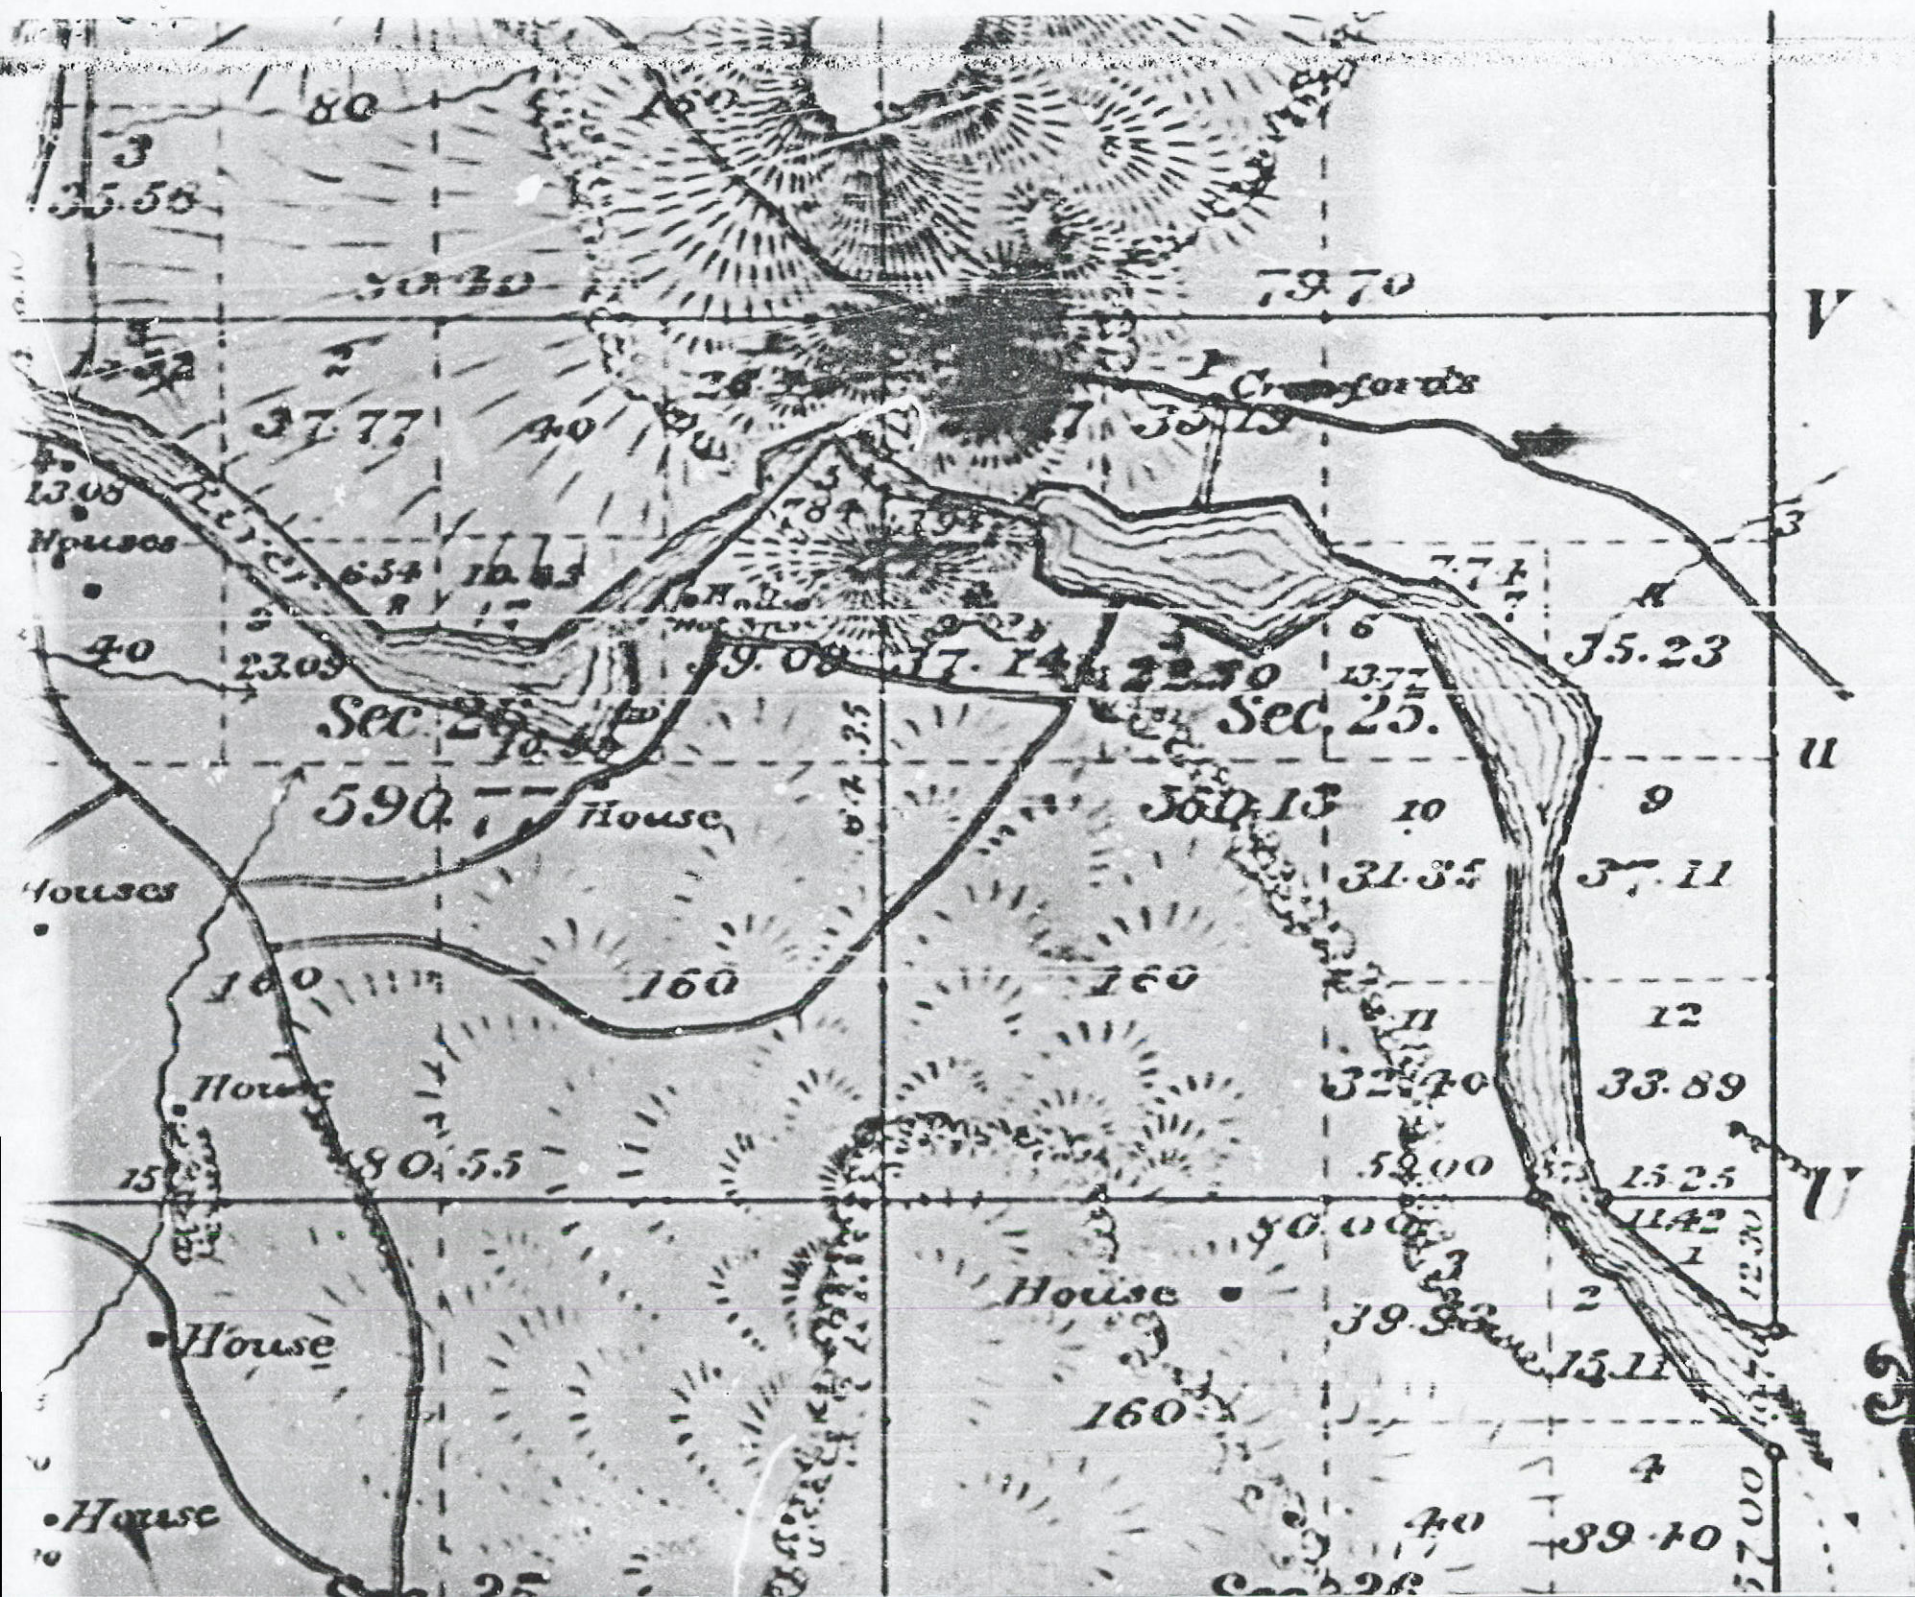

Frank D. Calleynder

HC 71 Box 2005

Dear Phil:

In looking over my recommendations for the Payette River permissible place of use, right nos. 65-04031A, 65-04031B, 65-04031X, and 65-03580, I noticed an error in my data entry for place of use. In T14N, R03E, Section 13, I recommended 32 acres in the NENE, this should have been the NESE, and I recommended 13 acres in the SWNE, which should have been the SWSE

I have corrected the place of use. Enclosed you will find copies of the above mentioned rights. The place of use does correspond to the map I sent you. Also, you should have received a \$50 refund on the transfer covering these lands.

If you have any questions, give me a call. I hope you are enjoying your maps.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Sue Bock'.

being first and

deposes and says: He bought the ranch from Horace Petersen in 1954 and continued to use and increased the use of river water.

He continued to use 150 inches of river water on the river water lands. In 1957 he installed a 10 horsepower pump in the ditch re-lining from the Idaho Power Penstock. This pump is located near the turn off onto the Vana Road from Highway #55. This pump pushes about 100 inches of water under the Vana Lake Road and irrigates 240 acres.

In 1962 he installed a 40 horsepower pump in the same ditch re-lined above that originates from the Idaho Power reduced penstocks. This pump is about 600 feet from the origin of the ditch and just 100 feet before the ditch crosses highway #55. About 300 inches of water is raised 10 feet to a ditch between the two U. P. Railroad Tracts. This ditch flows north and irrigates about 600 acres. He used this water in 1962 and 1967 beneficially to capacity until he sold the ranch to Lee Dahl in January 1968. Dahl used the water in 1968 and 1969.

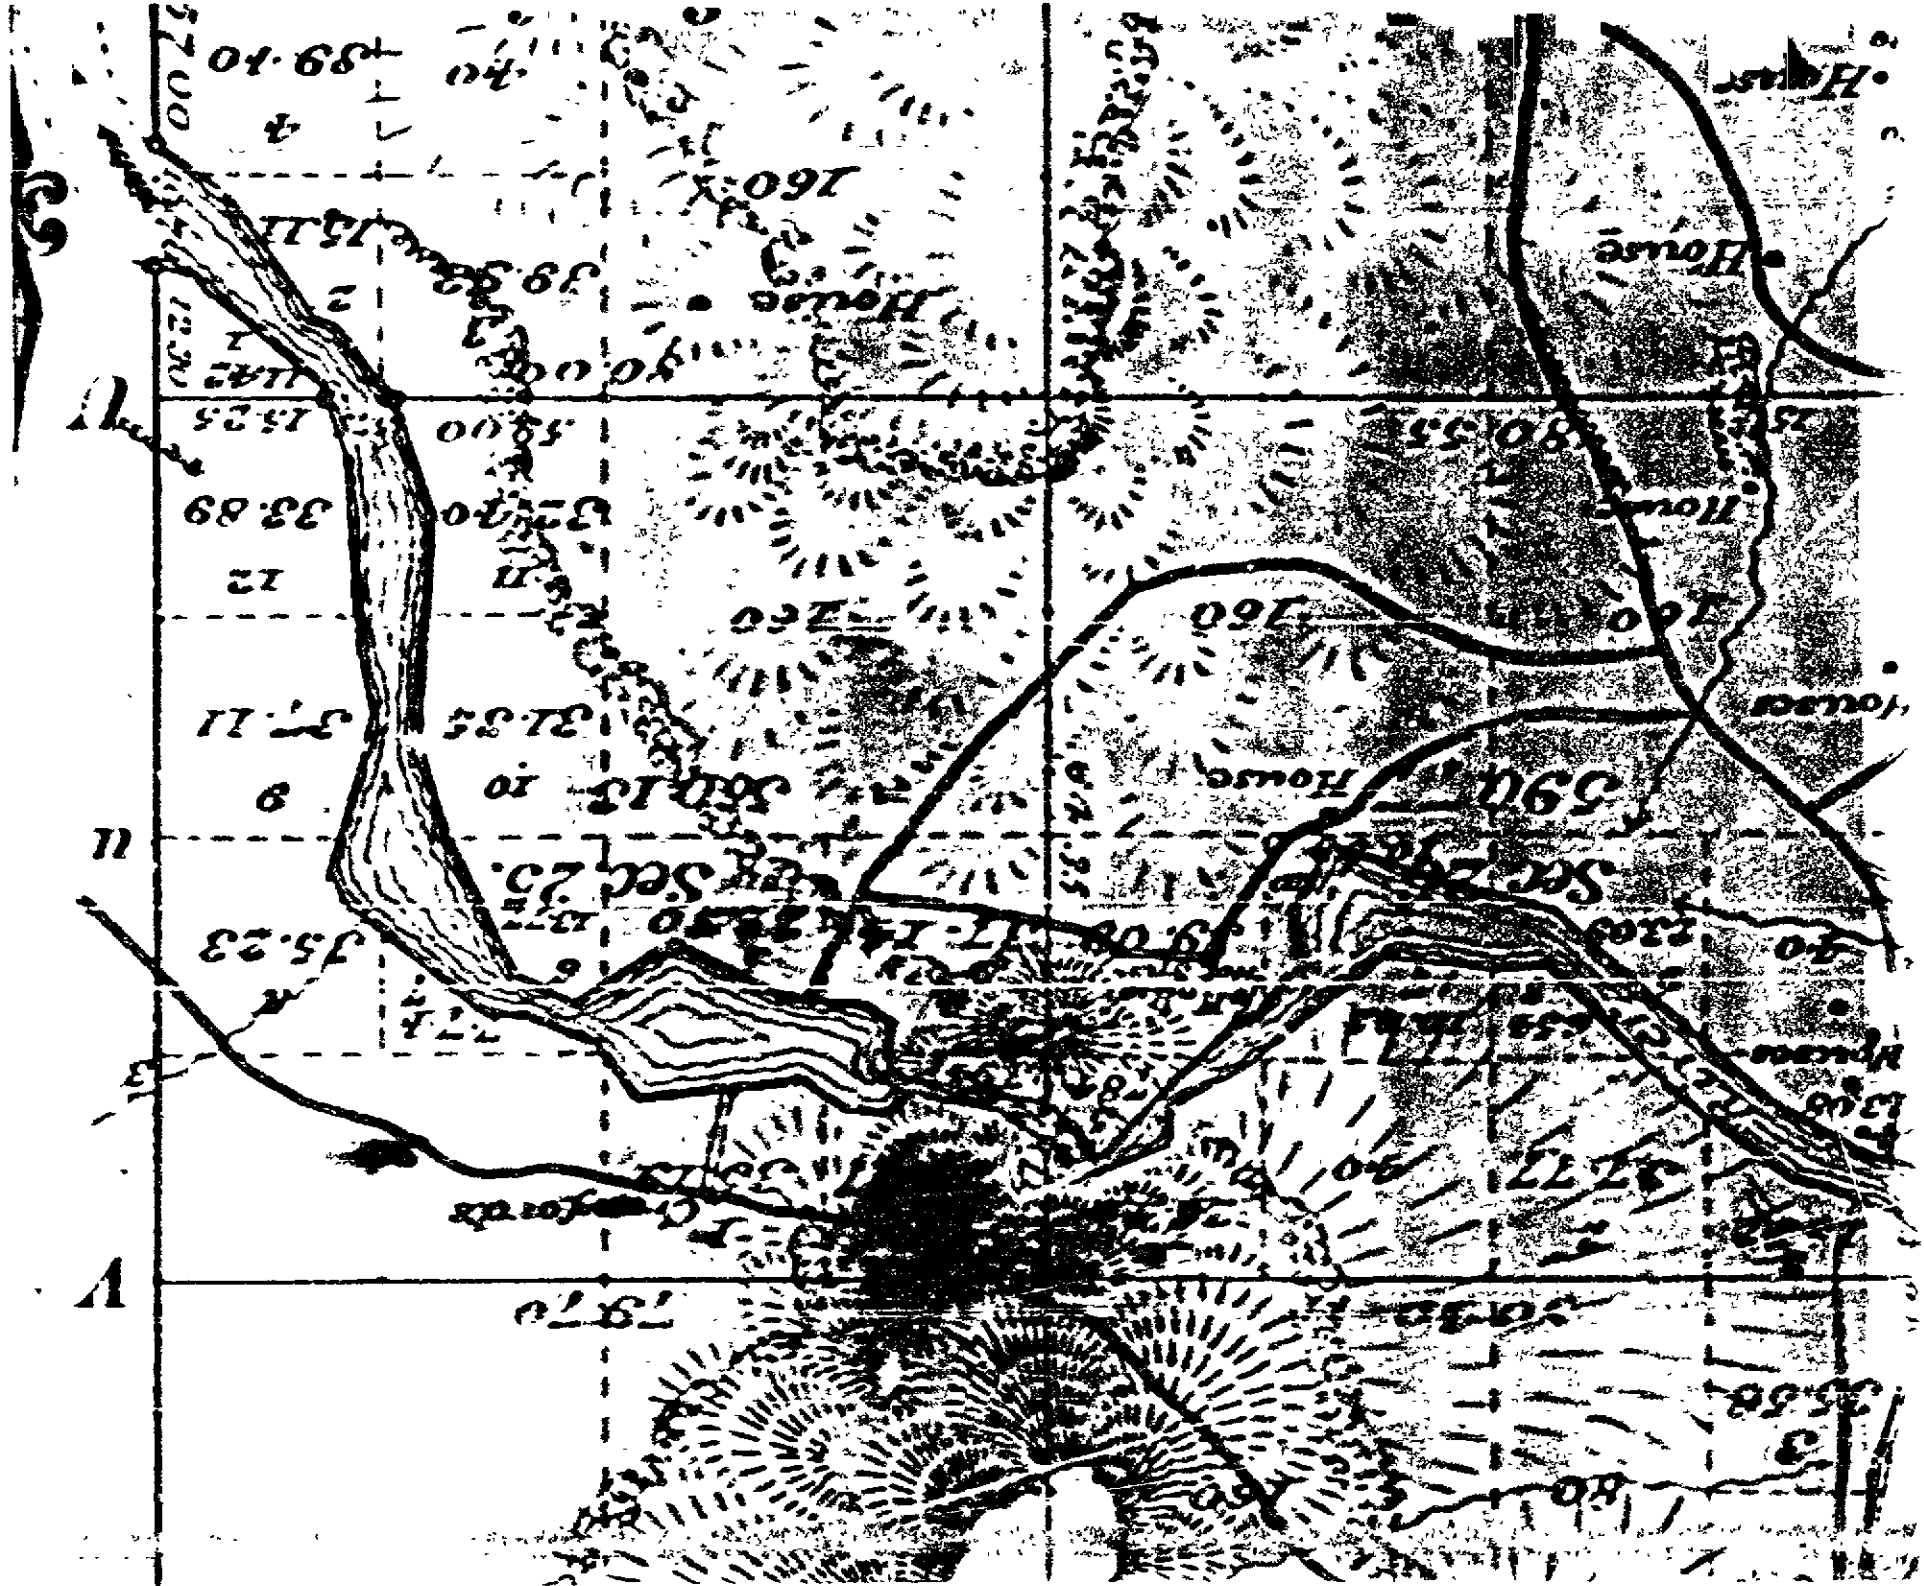

John Strinzer rented the ranch in 1966 and 1967 and used the water to full capacity. The ranch was bought in 1967 by Lee Dahl and he continued to use the water to full capacity in 1968 and 1969.

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief
