DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim,

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

Re: Civil Case No. 3667 - Frasier, et al Objection 65-05089

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 0.90 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 2.62 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

Re: Civil Case No. 3667
Frasier, et al Objection 65-05089

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of .90 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

A handwritten signature in dark ink, appearing to read 'Donald V. Shaff'.

CONVERSATION MEMORANDUM

DATE 8/22/86FILE 65-5088 & 65-5089NAME OF PARTY William H. ConradEMPLOYEE John K. Hoyer

RE: Waste water rights measured at about
10 o'clock in the morning - probably there
was more water earlier in the morning.
Mr. Conrad system has a greater capacity
to carry more water - There is a 15" concrete
pipeline - SCS says this pipeline has a
capacity of 6.32 cfs - waste water varies
depending upon how much water the above
neighbors waste.

	.30 cfs
on claims 84 acres $\times .02 = 1.68$ cfs	2.24 cfs
	<u>2.54 TOTAL</u>

approx - 1.5 inches per acre.
