DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season"

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

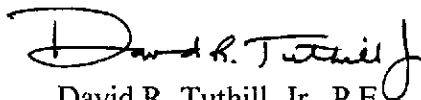

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim.

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA
3. You must not have filed a stockwater claim with the surface water irrigation claim

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

03/07/2001

NOTICE OF FILING DIRECTOR'S REPORT

DIRECTOR'S REPORT

This Director's Report Part II is a report by the Director of the Idaho Department of Water Resources (IDWR). It contains abstracts of claims by the United States and Indian Tribes to "non-consumptive" water rights (such as instream flows) throughout the Snake River Basin. The abstracts summarize the claims without substantively changing the water right as claimed. The Supplemental Director's Report Part II includes abstracts of claims not included in the Director's Report Part II. The supplemental report also includes abstracts of amended claims, which contain changes to claims previously abstracted in the Director's Report Part II.

The Director's Report Part III contains the claims filed for these water rights, and includes both the claim documents and maps. The Supplemental Director's Report Part III includes claims not included in the Director's Report Part III, as well as amended claims which contain changes to claims included in the Director's Report Part III.

Complete copies of Part II of the reports are available for inspections at all offices of IDWR and at the other locations printed on this notice. Complete copies of Part III of the reports are available for inspection at the State Office of IDWR and the SRBA District Court. Copies of all or a portion of the reports are available from the IDWR State Office subject to payments of costs of mailing and/or copying.

OBJECTIONS TO DIRECTOR'S REPORT

You may file an objection to any portion of the Director's Reports with the SRBA District Court. You must use a court approved objection form that is available from IDWR, which contains instructions for filing the objection. **DO NOT FILE** All objections must be received by the court on or before October 16, 1995. You must mail a copy of your objection to IDWR and the United States as shown on the objection form. If you are objecting to an abstract of a claim filed by an Indian tribe, you must also mail a copy of the objection to the tribe at the address shown in the report.

RESPONSES TO OBJECTIONS

The United States and the Indian Tribes may but are not required to file a response to an objection to abstracts of their claims with the SRBA District Court.

PARTIAL DECREE OF UNCONTESTED PORTIONS OF DIRECTOR'S REPORT

Those portions of the Director's Report to which no objections are filed will be decreed by the district court after a hearing to be held at 1:30 p.m., May 21, 1996 at the SRBA Courthouse in Twin Falls.

NOTICE OF FURTHER PROCEEDINGS

You will be mailed a notice of further proceedings on an objection to **your water right, your objection, or your response**. You will not be mailed notice of other objections or proceedings on other objections.

Notice of other objections and responses to other objections will be included on a monthly docket sheet distributed by the SRBA District Court. A subscription to the docket sheet may be obtained from the court for a small annual fee (\$7.50 for the calendar year 1995).

IDWR has filed or will file Director's Reports for all other claims within the Snake River Basin, one for each of the reporting areas in the Snake River Basin. Notice of the filing of these reports, and of further proceedings on these reports, will also be included in the docket sheet.

You may be affected by orders and decrees entered by the court in proceedings on other objections and proceeding on other reports. **It is very important that you subscribe to the docket sheet** if you wish to stay informed of these other proceedings. For further information as to documents filed with the court and hearings scheduled before the court in the SRBA, you must inquire at the SRBA District Court.

FURTHER INFORMATION

The court has adopted procedures for the post-report phase of the SRBA, which are set forth in the order of the court entitled "SRBA Administrative Order No. 1." A copy of this order can be obtained from the State Office of IDWR or the SRBA District Court.

If you have questions about the SRBA, please call any office of IDWR listed in this notice. If you have questions concerning your rights and responsibilities as a claimant in the SRBA, please consult your attorney.

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

May 23, 1995

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:

Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.
2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.
3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

(Name of Claimant)

(Name of Claimant)

RT. 2 Box 238 Emmett, Idaho 83617, claims a right to the diversion

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued) 11-2-1883

- (2) Describe source of water; (Name of stream, lake, spring, etc., or subterranean) Payette River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Use 1.0 Irrigation 225 AF Period of Use From 4-15 To 10-31
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
(Both Dates Inclusive)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
(Both Dates Inclusive)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

- (4) Quantity of water claimed: 1.0 ✓ Cubic Feet Per Second, or 228 ✓ Acre Feet Per Annum,
and/or 47 ✓ Gals. Per Minute. ✓

- (5) A) Point of Diversion: Give location of point where water is diverted from its source. SW 1/4 SW 1/4
Sec. 6, Twp. 6N, Rge. 1W, B.M.; additional points:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.)

Give sizes and capacities; be as specific as possible. diversion headgate w/ gravity
slow ditch

- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres 50.350

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:_____

irrigation of 50.3 acres

- (7) Effluent, sewage waste, or return water from this use is discharged into unnamed drain

- (8) If you are claiming water as a member of an organization, list name of organization. _____

- (9) Remarks lot 34 Map A
 → (Point of re-diversion from Gill Slough in SWSE S.1, T6N R2W)

- (10) Basis of claim (Check one) ☒ A) Right based on diversion and beneficial use.
☐ B) Right decreed by court, cite title of case _____

- ☒ C) Right based on application, license, or claim filed with State Reclamation Engineer, Office No.:

Be it known that the undersigned, after being duly sworn on oath, depose(s) and say(s) that all statements included herein are true and accurate to the best of (his, her, their) knowledge.

Re: Civil Case No. 3667 - Frasier, et al Objection 65-05311

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

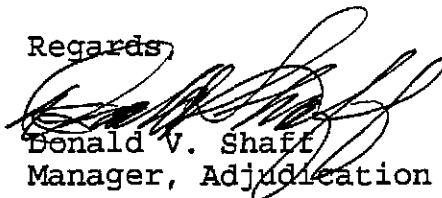

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 1.46 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 2.34 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

RE: Snake River Basin Adjudication (SRBA)
Gem County - #65-05311 & #65-8742

Dear Mrs. Gillihan:

We received your note October 17, 1991, about completing the forms for additional flow requirements. Your request is acceptable as long as you promptly take care of the forms upon your return from Big Creek at the end of this month. We are making progress on this basin in resolving this issue with the other water users and will be prepared to present matters to the court in the near future.

I appreciate your letting me know about the delay. If you have any further questions or concerns, please contact me again.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section

Re: Civil Case No. 3667
Frasier, et al Objection 65-05311

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

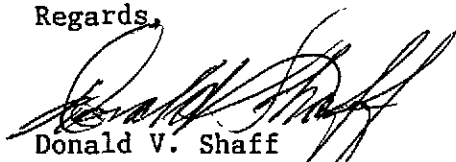

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 1.46 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Donald V. Shaff
Manager, Adjudication Section

CONVERSATION MEMORANDUM

DATE 8/25/86FILE 65-5311 & 65-8742NAME OF PARTY J.E. Mitchell (now owner ~~of~~ Hazel Janlan)EMPLOYEE John K. Noyes

RE: The following measurements were made at the
concrete diversion box for rights 65-5311 &
65-8742 - Hazel Janlan owns these two rights.
65-8742 - concrete ditch south of gill slough
& east of house. 1.9 CFS
65-5311 .42 north of bill slough.
total 2.32 CFS measured

65-5311 50 acres65-8742 28 acres78 acres total

$2.32 = 116 \text{ inches} \div 78 = 1.49 \text{ inches per acre.}$
Water in lateral is divided at diversion
box for these two rights - water can also be
spilled into bill slough. Lateral & irrigation
systems can deliver more water than measured
if need arises. Pipeline delivers water from
concrete diversion box to right 65-5311.

RIVER DRAINAGE BASIN	)	OBJECTIONS TO WATER
	)	RIGHT NOS. ~~65~~ 05311,
	)	65-08742

The Director of the Idaho Department of Water Resources, R. Keith Higginson, by and through counsel, and Hazel Lanham and Catherine Gillihan stipulate as follows:

1. That water right claim Nos. 65-05311 and 65-08742, be accepted and included in the Proposed Finding of Water Rights in the Payette River Drainage as set forth in Exhibit A, attached hereto and incorporated herein by this reference.

2. That Hazel Lanham and Catherine Gillihan withdraw all pending objections, including those based on the objection filed by Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown in July 1982, in the above captioned matter.
