KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.

2. Measurements: Used theoretical - nozzle pressure gage non-op. Manifold pressure = 65 psi on 25HP pump only. Large pump only used in case of frost control, w/in irrigation season = irrigation. 25HP pump # on exam, running about 50 sprinklers on orchard.

E. NARRATIVE/REMARKS/COMMENTS

(see D65-7031)

Dam and reservoir, 26 AF (per dam inspection) with controllable outlet, used for storage of flows in Little Whitley Gulch and regulation of incoming Black Canyon Shares. A relief station on the west side of the reservoir pumps to buried mainline running to the west, north, and back east under the res. pool. Used with permit 65-7609 which pumps natural/waste flows from Little Whitley Gulch downstream from dam.

Eblins are Mrs. Surmeier's parents. Mr. Eblen is deceased. Mrs. Surmeier is planning on obtaining an assignment from Mr. Eblen. Send amendment to Surmeiers if necessary.

Source is actually Little Whitley Gulch. Isolation valves within system allow operation of several distinct zones from various pump stations/sources. See 65-7609 and system map. All live irrigation to be recommended under 65-7609.

Overlaps: No P/D overlaps. 65-7609 & 65-2565 for irrigation from natural flow on some of some acres. 65-5893 for irrigation from waste water in W $\frac{1}{2}$ NE $\frac{1}{4}$. All acres have Black Canyon Shares.

____ Additional Computation Sheets Attached

Measured Method:

*See 65-7609. Flow N/A this permit***G. VOLUME CALCULATIONS****1. Volume Calculations for Irrigation:**

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 160 \times 4.5 = 720 \text{ AF}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$
