Subject: Late Claims

These claims were received June 9th without any fees or extension of time request. Ellen Berggren, John Beal and Phil Rassier have recently assisted the City and played a role in the filing of these claims.

Ms. Berggren related to me today the City only filed a claim for A65-07769 during the Round 1 period because the wells in 1989 were not actively utilized for water quality reasons. By working with IDWR on the Payette River Basin Water Plan, the City has recognized the value of the previously unclaimed water rights from the well(s) and the importance to keep its options open to supply the needs of the growing area.

I believe good reason exists to accept the claims late and waive the late fees. No extension request from the claimant is necessary. Each of these claims are for water rights decreed in the Payette River Basin Adjudication and require no filing fees either.
