Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.

RE: Water Rights in Reporting Area 15, Basin 65
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in part 1 of basin 65 (the North Fork of the Payette River drainage area). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 120 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Cascade, Idaho City, Emmett, Payette, and Weiser, and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed early next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Wednesday, October 13, 1999, at 7:00 p.m. in the Senior Citizen Center, 409 School Road, Cascade.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

Barry Wood

RE: Snake River Basin Adjudication
Valley County

Dear Mr. Spink:

During the review of your Notices of Claim to a Water Right, we discovered that we made an error when we sent you the claim for water from a spring in Valley County used for domestic and irrigation.

We erroneously sent you a claim for a water right acquired under federal law; in actuality, your water right was acquired under state law. Therefore, we ask that you sign and have notarized the correct form. Please return it to this office by October 20, 1989.

Enclosed (LRS)

I apologize for any inconvenience this may cause; however, it is important for the protection of your water right that it be correctly described. Please do not hesitate to contact Helen Harrington, at this office, if you have any questions or need assistance.

Sincerely,

Helen Harrington

*Thanks -
Louis R. Spink*

Dear Mr. Spink:

Your Notice of Claim Form has been received and processed, however there is a problem with claiming two separate households on the same claim. After March 25, 1963 all groundwater developments required an application for permit, except single, family domestic and stockwater wells using less than 13,000 gpd. Your priority date indicates that there should have been a permit filed for the well.

Your 1975 priority date also indicated that there should have been a Notice of Water Right filed with the Payette River Adjudication. Our research indicates there was a decreed water right filed on a spring, tributary to Lake Fork Creek by a John Spink, for property with the same legal description as your Claim. This decreed water right is for irrigation of 2 acres and domestic use in one home.

The description of your property on your Notice of Claim matches that of the property covered by water right 65-07107, therefore I have enclosed a computer generated copy of the Claim in your name, for irrigation of 2 acres and domestic use for one house. If this is indeed your water right, to claim the right under the Snake River Basin Adjudication, sign the notice and have it notarized. The statutes governing the adjudication provide that late fees be assessed to encourage prompt filing of the Notices of Claims. Idaho Code 42-1409(8) sets these fees at \$50.00 or 15% whichever is greater. The deadline for Valley County was November 23, 1988 therefore, the late fees applicable to your claim would be \$50.00. If you feel you have a compelling reason for not complying with this deadline you may request an extension of time and waiver of fees. I have enclosed a form for your possible use in this matter. As there were no filing fees required for Payette Adjudicated water rights the total fees for this claim would only be the \$50.00 late fees.

Your claim for the water right on the domestic well has been accepted, for just one household. Please review the enclosed data entered claim #A65-18057. The claim was modified to cover domestic uses for one house, see items #6, #7, #9 and #13. If you believe our data is correct, please sign the form, having your signature notarized, and return it to this office as an

ges and sign the form, having your signature notarized, and return it to this office as your revised claim.

I have also enclosed a copy of Claim A65-18057 for your files, and after your notice of claim for water right A65-07107 is received at our office a copy will be made and returned to you.

Please return a copy of this correspondence with your claims, and do not hesitate to contact this office if you have any questions or concerns.

Yours truly,
