MAP NO.

(Name of Claimant)

claims a right to the diversion

The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued)
April 15, 1971 (No. 65-7122)
- (2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean)
~~Mountain Lake~~ Springs ~~Trick North Fork Payette R.~~
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
(Both Dates Inclusive)
- Use ~~Recreational lake~~ ~~storage~~ 170 A-F Period of Use From Jan. 1 To Dec. 30 11/1
(Domestic, irrigation, stock, etc.) (Mo., Day) (Both Dates Inclusive) (Mo., Day)
- Use 2 cfs ~~diversion to storage~~ Period of Use From 1/1 To 12/31
(Domestic, irrigation, stock, etc.) (Mo., Day) (Both Dates Inclusive) (Mo., Day)
- Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Both Dates Inclusive) (Mo., Day)
- (4) Quantity of water claimed: ~~2~~ 2.0 Cubic Feet Per Second, or 170 Acre Feet Per Annum,
and/or _____ Gals. Per Minute.
- (5) A) Point of Diversion: Give location of point where water is diverted from its source NE 1/4 ~~lot 3~~ 6, 1/4 619
Sec. ~~5~~ 17, Twp. T. 18 N., Rge. 3 E., B.M.; additional points:

Normal run-off stream

- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres.

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:
Only use to be recreational, lake overflows back into Payette River

- (7) Effluent, sewage waste, or return water from this use is discharged into _____
- (8) If you are claiming water as a member of an organization, list name of organization. _____
- (9) Remarks *(This right when combined with 65-7558 shall provide no more than 170 AF)*
- (10) Basis of claim (Check one) ☒ A) Right based on diversion and beneficial use.
☐ B) Right decreed by court, cite title of case _____
☒ C) Right based on application, license, or claim filed with State Reclamation Engineer, Office No. _____

Be it known that the undersigned, after being duly sworn on oath, depose(s) and say(s) that all statements included herein are true and accurate to the best of (his, her, their) knowledge.

State of Idaho
Department of Water Resources
Water Right License

WATER RIGHT NO. 65-07122

Priority: February 18, 1970

Maximum Diversion Rate: 0.26 CFS
Maximum Diversion Volume: 95.0 AF

This is to certify, that RIO VISTA PROPERTY OWNERS ASSN
PO BOX 298

MC CALL ID 83638

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated February 18, 1970; and has submitted Proof of Beneficial Use on February 4, 1976. An examination indicates that the works have a diversion capacity of 0.260 cfs of water from:

SPRING

tributary to PAYETTE RIVER, NORTH FORK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
RECREATION STORAGE	01/01 to 12/31		
DIVERSION TO STORAGE	04/15 to 11/01	0.26 CFS	95.0 AF
	Totals	0.26 CFS	95.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 10(NWSWSW), Sec. 8, Township 18N, Range 03E
VALLEY County

PLACE OF USE: RECREATION STORAGE

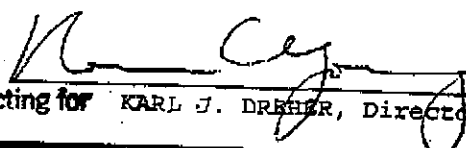

TWN RGE SEC

18N 03E 8	Lot 10(SWSW)	Lot 9(SSEW)
17	Lot 3(NWNE)	NENW

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
3. Rights 65-06917, 65-07558 and 65-07122 when combined shall not exceed a total annual diversion volume of 95.0 af.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Signed and sealed this 29th day of October, 1999.

Ms. Walker:

Re Water Right A65-07122
And A65-06917

As Secretary/Treasurer of the Rio Vista Property Owners Association I have signed and am returning the amended claim, A65-07122, which you sent on August 17, 1999.

I have a question however. We have three claims to a water right and another of them, A65-06917, was also filed with a Date of Priority of April 15, 1971. Is that date correct or should it also be February 18, 1970? If it should also be changed please let me know.

You may reach me at the above address or at 1-208-634-3760. I left you a "voice mail" earlier today but may have garbled it since the allowed time was insufficient to give you much information.

Thank you for your assistance.

Sincerely,

Albert E. Wilson, Sec/Treas.

RE: Notice of Claim to a Water Right No. A65-07122

Rio Vista Property Owners Association Inc.
P.O. Box 298
McCall, ID 83638

Gentlemen:

In a review of the above referenced claim to a water right, I found that the priority date claimed is not correct. This water right was submitted to the Department on February 18, 1970, thus establishing a priority date of February 18, 1970. During the Payette River Basin Adjudication claims taking, in November of 1973, we received a claim on this water right with a priority date of April 15, 1971, which is the date this water right was permitted by our Department. I contacted our State Office this afternoon and had the file reviewed and there was no indication in our file why your priority date had been advanced.

I have prepared an amended claim to a water right form which will allow me to correct the errors made on the priority date. Please note that I have changed the claimed priority to the date the application was submitted. Please sign the enclosed amended claim form in the presence of a notary public and return it to my attention at your earliest convenience. We are preparing recommendations on water rights from the North Fork of the Payette River at this time. Our report is to be sent out in September and I cannot recommend a priority date earlier than the date you have claimed. If you have any questions in regard to this matter, please do not hesitate to contact me.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
N/A	N/A	N/A	N/A	N/A	N/A	N/A

2. **Measurements:** The timed fill method was performed by Mel Schulte on 6/6/91. This method consisted of measuring the time it took to fill a 4 ft in diameter standpipe a certain distance. This was done while the relift pump was not operating. This allowed Mr. Schulte to attain the actual diversion rate of the spring of .26 cfs. I reviewed Mr. Schulte's calculations and believe them to be reasonable and the only way to attain an accurate measurement of the system (see attached Diversion Rate Calculation Sheet).

E. NARRATIVE/REMARKS/COMMENTS

There have been 3 field visits for this exam. The first field visit was done by Steve Lester on 9/9/1987. Mr. Lester visited this system late in the year and could not attain a maximum diversion rate for the spring. Mel Schulte performed a second field visit to this system on 6/6/1991. At this time Mr. Schulte measured the system using the fill method and determined that the flow rate was approximately .26 cfs. Cindy Hodges and Dave Tuthill visited this site to determine if there was more than one spring and to find a possible weir for measurement. They did not find anything that had not been found by Mel Schulte in 1991. I also spoke with John Westra, Western Region Dam Safety Specialist, who visits this site every two years to confirm the points of diversion and place of use. I (Daniel A. Nelson) have been asked to review and complete this field report.

SYSTEM DESCRIPTION:

This permit is to license a spring in the NWSWSW ¼, lot 10 of section 8 township 18N, Range 03E. This spring is collected through a 4" collection pipe and is diverted into a 4 ft culvert 15 feet deep. The water is then pumped from the bottom of this culvert or the water is allowed to fill the culvert and naturally flows into a 10" distribution pipe that delivers the water to the unnamed stream mentioned under overlapping water rights (right 65-06917) that empties into the reservoir. The pump for this system is used as a relift pump and is not essential to the system. There is no record of the pump size or horse power for this pump and none of the examiners or the owners that I contacted know the size or type of pump.

The place of use for this permit is a recreational reservoir that is located in township 18N, Range 3E in the SWSW ¼, lot 10 and SESW ¼, lot 9 of section 8 and NENW ¼ and NWNE ¼, lot 3 in section 17. The reservoir size was determine by Mike Stubblefield, Idaho Department of Water Resources, to be 95 acre feet on 5/13/1977 during the licensing process for water right 65-07558 (see attached volume sheet). John Westra, Western Region Dam Safety Specialist, has visited the site every 2 years since the licensing of 65-07558 and stated that reservoir size has not changed. I performed some measurements on the USGS Quadrangle map and concluded that reservoir's surface area was approximately 18 acres. This was consistent with the volume measurements of Mike Stubblefield in 1977.

OVERLAPPING WATER RIGHTS:

This application is to license the spring diversion for the Rio Vista Property Owners Association's recreational reservoir. The reservoir is fed from three different sources. The first source consists of a pump diverting water from North Fork Payette River into the reservoir (water right 65-07558). The second source consists of the natural flow from an unnamed stream into the reservoir (water right 65-06917). The third source (this permit 65-07122) is a spring described above that diverts into the unnamed stream mentioned above for water right 65-06917. All other water rights in these sections do not seem to pertain to this reservoir. Please note overlapping water right map.

RECOMMENDATIONS:

I recommend that this permit be licensed for a diversion rate of .26 cfs per Mel Schulte's measurement. I also recommend that this permit be licensed for an annual volume of 95 afa annual volume and a maximum volume of 95 afa when water rights 65-07122, 65-07558, and 65-06917 are combined.

Have conditions of permit approval been met? ☒ yes ☐ no

Perc H. Shelton
P. O. Box R
McCall, ID 83638

Dear Mr. Shelton:

O
We will be glad to answer your two questions. First, adjudication claims in the names of Rio Vista, Inc. have been filed on permits 65-7558 and 65-7122. No further adjudication action need be taken on them.

P
Second, the present adjudication procedure is an effort to record the existing water rights in the Payette drainage. Future filings are not affected. You might note, however, that to develop a new water right anywhere in Idaho an Application for Permit must be filed with our Department. The one exception to this is for single household domestic wells.

Y
If you have further questions, please feel free to contact this office.

Sincerely,

DAVID R. TUTHILL, JR.
Payette Adjudication Supervisor

Department of Water Resources
Western Regional Office

Dear Mike:

I wanted to let you know that following your inspection visit of Aug. 1, we did cut out all of the small tree growth from the area just west of the spillway that we discussed that day. We also tested and oiled the low level outlet drain and it is working fine.

As we discussed also that day, we have now formed a Rio Vista Property Owners Association which will be taking over the operation and maintenance of the dam and reservoir. I am hereby requesting that the certificate for the dam be changed over from the name of Rio Vista, Inc. to the name of Rio Vista Property Owner's Association, Inc. We are having our organizational meeting on Nov. 15, 1988 and we would greatly appreciate having the certificate in the new name by that time. We also would appreciate a letter indicating that the dam and reservoir are in good operating condition and will continue to receive state approval if kept in like condition. This would assure the Property Owner's Association that Rio Vista, Inc. is turning it over to them in good condition according to your department's guidelines.

We are also hereby requesting that all water rights currently held in the name of Rio Vista, Inc. be transferred to the name of Rio Vista Property Owner's Association, Inc. There are three of them and they are identified in a document dated March 5, 1979 titled PROPOSED FINDING OF WATER RIGHTS and they are numbered as Claim Numbers 65-7122, 65-6917 and 65-7558. These three water rights were also recently reported for the current adjudication which is being conducted as I met with Linda Werner on Sept. 28, 1988. During that process the threewater rights were identified with Ident. Numbers: A65-07122, A65-06917 and A65-07558 respectively.

Would you please send me a letter to verify that all of these transfers have taken place along with verifying the condition of the dam and reservoir as I mentioned above. Also, if we could receive the new certificate in the new name by Nov. 10 or at least mention in your letter that it will be issued that way when it is done.

Thank you very much for all of your help. If I can answer any questions, please let me know. You can continue to use P.O. Box 817 McCall, Idaho 83638 for the mailing address of the Property Owner's Association since I have been elected as secretary for that assoc.

Sincerely yours,

David Engen
