Re: A65-06843 & A65-07683

I'm currently reviewing the above referenced claims filed in the Snake River Basin Adjudication. These claims relate to water rights for domestic uses in Mountain Shadows Subdivisions #1 & #2.

A65-06843 claims water right 65-06843 that was decreed in the Payette River Basin Adjudication for 18 home sites in both subdivisions. A65-07683 claims permit 65-07683 which authorized 20 additional home sites in the subdivisions. When permit 65-07683 was licensed it added only 6 additional homes not the full 20 authorized in the permit. Therefore, it appears there may some home sites that are not covered by a valid water right.

The legal descriptions in both rights mentioned above describes the place of use as T15N, R03E, Sec. 3, NENW & NWNW. The subdivision plats indicate that part of Mountain Shadow Sub. #2 is located in T15N, R03E, Sec. 4, NENE & SENE. Therefore, the subdivision's lots in Sec. 4 are not covered by a valid water right.

First step to obtain a water right is to file an Application for Permit. Enclosed is an application form and instructions. Also, for your information, are copies of computer printouts that describe the two existing rights and a copy of an aerial photo showing the location of the subdivisions.

Call me at the number below if you have questions or additional discussion.

Cordially,

that the works have a diversion capacity of .210 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>

The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 6 homes.
6. 2 points of diversion located in Gov. Lot 4 (NNW), S3, T15N, R3E; diversion system is a springbox type of development with water storage in the bottom of the structure but is pumped like a well, therefore, the source is listed as groundwater.
