RE: Snake River Basin Adjudication
A65-08469, A65-03174

Dear Mr. Rygg:

As you requested the change in ownership for the above referenced water right claims has been recorded in the Department's records. This change is reflected on the enclosed, typed claims. You do not have to sign and return these forms. The claims are for your records.

Water right #A65-08470 was not changed because the place of use of the water from the spring does not match the tract described in the deed you provided. A copy of what we call a Proof Report is enclosed. The spring is apparently on your land, but the water is diverted away under this water right to the Taylor's land.

If I can be of further assistance please feel free to contact me.

Yours Truly,

Donald V. Shaff
Adjudication Section Supervisor

RE: Water Rights in Reporting Area 15, Basin 65
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in part 1 of basin 65 (the North Fork of the Payette River drainage area). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 120 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Cascade, Idaho City, Emmett, Payette, and Weiser, and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed early next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Wednesday, October 13, 1999, at 7:00 p.m. in the Senior Citizen Center, 409 School Road, Cascade.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. *Your participation is necessary so that accurate information is provided to the SRBA District Court.*

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

A handwritten signature in black ink that reads "B Wood".

RE: Snake River Basin Adjudication
A65-08469, A65-03174

Dear Mr. Rygg:

As you requested the change in ownership for the above referenced water right claims has been recorded in the Department's records. This change is reflected on the enclosed, typed claims. You do not have to sign and return these forms. The claims are for your records.

Water right #A65-08470 was not changed because the place of use of the water from the spring does not match the tract described in the deed you provided. A copy of what we call a Proof Report is enclosed. The spring is apparently on your land, but the water is diverted away under this water right to the Taylor's land.

If I can be of further assistance please feel free to contact me.

Yours Truly,

Donald V. Shaff

IN THE MATTER OF THE GENERAL)
DETERMINATION OF THE RIGHT TO)
THE USE OF SURFACE AND GROUND-)
WATERS OF THE PAYETTE RIVER)
DRAINAGE BASIN.)

Civil No. 3667 *Helma R. Kolitz*
ORDER AND PARTIAL DECREE
PURSUANT TO I.R.C.P. 54(b)

The foregoing Stipulation, of Lake Irrigation District, Edward A. Cruzen and the Department of Water Resources, having come duly and regularly before the Court and good cause appearing therefore,

IT IS ORDERED AND DECREED that the water rights, priority dates, uses, periods of use, quantification of rights, diversion points, places of use and basis of claim identified in Exhibit A attached hereto and incorporated herein by reference are adopted by this Court, and the Proposed Finding of Water Rights in the Payette River Drainage Basin (hereinafter "Proposed Finding") shall be amended accordingly. Some of the rights listed in Exhibit A were previously decreed by the court in its judgment of January 21, 1986. They are included here to provide a complete listing of all rights on Lake Fork Creek. Claim No. 65-10095, a reserved right claimed by the Forest Service, is not included because the State of Idaho and the United States are currently planning to become engaged in negotiations concerning federal reserved water right claims.

IT IS FURTHER ORDERED that all protests and objections

filed by Lake Irrigation District and Edward A. Cruzen against the water rights adopted by this Court in the preceeding paragraph are dismissed with prejudice.

IT IS FURTHER ORDERED AND DECREED that the Proposed Finding of Fact No. 10 and Conclusion of Law No. 6 as set out in the foregoing Stipulation and Finding of Fact No. 4 and Conclusion of Law No. 3 as set out in Exhibit B of the foregoing Stipulation are amended by said Stipulation.

IT IS FURTHER ORDERED AND DECREED that for purposes of operating Water District 65K the gauging station located in the SW1/4SE1/4NW1/4 section 8 township 18N range 4E B.M., above Jumbo Creek and above Tyee Creek shall have 10 per cent added to said gauge readings to account for the added flows of Jumbo and Tyee Creeks and other less distinctive sources between the old site of the gauging station and the present site, unless modified by order of this Court due to changes in the measured flows.

IT IS FURTHER ORDERED AND DECREED that for purposes of operating Water District 65K, reference may be made to the decree of Paul Michelson et al v. M. H. Williams et al (7th Judicial District, Valley County, 1928) for a period of five years following the date of this order, to answer questions arising as to the distribution of water rights listed in Exhibit A. The director of the Department of Water Resources, pursuant to his authority under Chapter 6, Title 42, Idaho Code, will initially

determine any distribution questions. The elements of the Michelson decree that are used in any orders or instructions to the watermaster during this five year term shall be made a permanent part of the water district file for Lake Fork Creek and shall be considered by the director in any future orders or instructions to the watermaster.

IT IS FURTHER ORDERED AND DECREED that jurisdiction is reserved by the Court, upon 10 days notice to the parties hereunto, to make corrections of clerical errors, inadvertences or omissions in the listing of water rights of Exhibit A to the foregoing Stipulation, and the reservation of jurisdiction for this purpose will date one year from the date of this Order.

DATED this 28th day of March, 1986.

DISTRICT JUDGE

54(b) Certificate

With respect to the issues determined by the above judgment, it is hereby CERTIFIED, in accordance with the Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final decree and that the court has and does direct that the above partial decree shall be a final judgment upon which execution may issue and appeal may be taken as provided by the Idaho Appellate Rules.

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief
