INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property owners to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1209(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these numbers(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and," "or," or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased in **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, acreage if more than $\frac{1}{2}$ acre, type and number of stock if your water right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

Dear Mr. Clark;

Enclosed you will find the information you requested relating to the water rights for the Barnes Trust.

I have included profile reports which outline the water usage as it was previously filed and the way it was claimed in the Snake River Basin Adjudication (SRBA). There is information enclosed for seven rights. I have separated each right and stapled the SRBA report on top and the corresponding water right record below it. I highlighted the source, usage and stage. Note that there are 3 reports that are for sources other than Alder creek. I included these for additional information.

The Alder creek drainage has not been organized into a water district, consequently, there is no watermaster to control water delivery. The Department will investigate complaints regarding water usage; however, because of the volume of complaints received this season, we ask that you make this request in writing. Please be specific in describing the problem.

I hope this information is helpful. If I can be of further assistance, don't hesitate to contact me.

Sincerely,
