RE: Water Rights in Reporting Area 15, Basin 65
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in part 1 of basin 65 (the North Fork of the Payette River drainage area). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 120 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Cascade, Idaho City, Emmett, Payette, and Weiser, and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed early next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

September 29, 1999

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Wednesday, October 13, 1999, at 7:00 p.m. in the Senior Citizen Center, 409 School Road, Cascade.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

SRBA CHAMBERS
P.O. BOX 2707
TWIN FALLS, IDAHO 83303-2707

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

Barry Wood

Administrative District Judge and
Presiding Judge of the
Snake River Basin Adjudication
