INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources; Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

WARRANTY DEED

FOR VALUE RECEIVED, KERSTIN I.M. PETERSON, an unmarried woman, as Grantor, does hereby grant, bargain, sell and convey unto E. DAVE McCOMAS and ROBERTA LYNN VAN BUREN, as joint tenants with right of survivorship, whose address is 4440 McKenna Way, Fiddletown, California 95629, as Grantees, the following described real property situated in Valley County, Idaho, and more particularly described as follows, to-wit:

The Southeast 1/4 (SE1/4) and the East 1/2 of the Southwest 1/4 (E1/2SW1/4), and Lots 3 and 4 in Section 31; and the South 1/2 of the Southwest 1/4 (S1/2SW1/4) of Section 32, all in Township 12 North, Range 4 East of the Boise Meridian, Valley County, Idaho.

To have and to hold the said premises, together with their improvements and appurtenances unto the said Grantees, their heirs and assigns forever. And the said Grantor does hereby covenant to and with the said Grantees, that she is the owner in fee simple of said premises; that the said premises are free from all encumbrances except those currently of record or plainly visible on the premises; and that she will warrant and defend the same from all lawful claims whatsoever.

DATED this 10th day of August, 1992.

Comments: Date: 03/10/1997 User-ID: CORR4 Subject: COPIED FROM REMARKS
It is likely that source was incorrectly decreed as groundwater.
Source is actually a spring, at the location specified. It is
also likely that point of diversion/place of use were somehow
incorrectly specified. There is no home or well at the decreed
P/U, and never has been, to the best of claimant's knowledge.
License 65-12932 was filed during the SRBA process and reflects
the correct use, but a later priority.

DOCUMENTATION IN THIS FILE PROVIDES ENOUGH INFORMATION FOR THIS
RIGHT TO BE CHANGED FROM ORIGINAL DECREE. SINCE A RIGHT COULD
NOT BE LOCATED FOR THIS SPRING, A SECOND RIGHT WAS FILED AND
SUBSEQUENTLY LICENSED FOR THE SAME USE. I HAVE LIMITED THE TWO
RIGHTS WHEN COMBINED TO MAXIMUM ALLOWABLE AMOUNT FOR SINGLE
FAMILY DOMESTIC USE. SEE FILE FOR MORE INFORMATION.

CLAIM REMARKS: GEN It is likely that source was incorrectly decreed as groundwater. Source is actually a spring, at the location specified. It is also likely that point of diversion/place of use were somehow incorrectly specified. There is no home or well at the decreed P/U, and never has been, to the best of claimant's knowledge. License 65-12932 was filed during the SRBA process and reflects the correct use, but a later priority. See also memo to file, 10/5/92. CJH

Dear Claimants:

We are preparing claims in the Round Valley area for preliminary report and I have been assigned your claim, as referenced above. I have reviewed the information in your claim file regarding the change from groundwater to spring, along with changes in the description of point of diversion and place of use. Since these changes have been documented by a representative of our Department, I am ready to recommend this right as a spring. In order for me to make this recommendation, you need to sign the enclosed amended claim form and return it to my attention as soon as possible. The claim on file now shows the source as "groundwater" with a remark stating that there was an error in the Payette River Decree.

Please sign the amended claim form in the presence of a notary public and return it to the address shown above. If you have any questions in regard to this matter, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kay Walker'.

It is likely that source was incorrectly decreed as groundwater.
Source is actually a spring, at the location specified. It is
also likely that point of diversion/place of use were somehow
incorrectly specified. There is no home or well at the decreed
P/U, and never has been, to the best of claimant's knowledge.
License 65-12932 was filed during the SRBA process and reflects
the correct use, but a later priority.

RE: RECOMMENDED CORRECTIONS

When included in the Payette Decree, this domestic claim in SESE Sec 31, T12N R04E was likely not verified by either Assessor's records or site visit. According to current claimants, Van Buren and McComas, this legal description is a part of their property, but there is not and never has been a domestic use from groundwater at the location in SESE Sec 31. The domestic use on the property is in NSW Sec 31, utilizing a spring in NESESE Sec 36, T12N R03E.

During SRBA claims-taking, an application was made on the spring because no filing was found for Sec 36. License recommendation has been made on 65-12932, with no corrected filing on record in SRBA. The amended claim and supporting evidence was filed by the current claimants, reflecting the correct use.

Because of other work in the area, I also have personal knowledge of this location and can affirm that there is no evidence of a homestead or other domestic use in SESE Sec 31. (See attached map and photos) My interpretation of the error includes these observations:

1. If one compares closely the correct (amended) legal description and the decreed legal description, it is possible to see how the correct description(s) may be incorrectly conjugated to form the legal description as found in the Payette decree.
2. It is common during claims-taking for spring sources to be incorrectly identified by the claimant as groundwater. If not verified, the error will carry over to the decree.
3. The priority decreed is 1924. Claimant has supplied partial evidence supporting a 1924 priority at the alleged correct location. This tends to at least link the Payette decree and the current claim.

Because a beneficial use claim with this priority cannot be filed in this area due to prior decree, I would be inclined to recommend a correction because there seems to be enough data available. A search of Valley county records (by the claimant) might be adequate to show that there was never a home at this location, at least since 1986, and therefore substantiate the error.

RE: Case No. 39576 465-08897

Dear Cindy Hodges:

In order to establish evidence of priority to the water rights of said property outlined in Case No. 39576, I am enclosing the following:

1. Several photos showing the original ditch and pipeline installed in 1924. These photos clearly show two pick up points at the spring - one is a 1/2" steel pipe line leading to the old trough marked "1924" and then going to the house. The other is a ditch going under Round Valley Road in front of the house via an old 12" (plus or minus) rivited culvert - this ditch now has a 1-1/4" plastic pipe buried in it.
2. An Affidavit signed by Mr. and Mrs. Ellis (ranch neighbors since 1954).

Please advise me if you feel further documentation is required.

Sincerely,

Dave McComas
