INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Dear Mr. Ford:

Thank you for the quick reply to our recommendation for your water right in Payette river area. You indicated that you divert water from the Payette River to irrigate you lawn. Lawn watering is a domestic use but you do not have a water right to divert water from the Payette River. Your current water right is for groundwater. If you wish to continue to use water diverted from the Payette River you may file for an additional water right to do so. I have enclosed the required forms and instructions for you. Please call our office if you have any questions. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'SDVH', followed by a long horizontal line.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

NO DISAGREEMENT IF "groundwater" includes the middle fork of the
Payette River in order to keep a small yard green. This amount
is plenty

2. Describe the changes you wish to make in the proposed recommendation:

NO CHANGES required unless pumping water from river to lawn
is NOT a "domestic" use. I DON'T irrigate AND the lawn is about 6000 sq ft
200' x 30' at most
BUT shared well is NOT
sufficient to keep it green
so we have pumped from
River clear back to 1948!

3. Give a brief explanation as to why you disagree with these portions:

N/A

X I AGREE with this proposed recommendation; no changes need to be made.

Renumbered Notice of Claim to a Water Right No. A65-10910B

WILLIAM R FORD
1863 N W LESTER
CORVALLIS OR 97330

Dear Mr. Ford:

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim by adding alpha suffixes to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time. You will be notified of any future action taken on this claim.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Lori Harris

SUBJECT

2 claims on A65-10910

while doing data entry on numerous Payette
 decreed adj claims, I encountered this ^{w/this #}
 claim. You also data entered a claim
 (2 days before this was received) It looks
 like you added a name, but I'm
 unclear exactly because I don't have
 original ^{w/this #} in your files. Please check files
