Dear Property Owner(s):

Enclosed is a copy of the above referenced water right, which reflects the *necessary name corrections* for the ownership of the land and appurtenant water rights, covered under the original filing. Also enclosed is a copy of the Notice of Completed Administrative Proceedings, which has been sent to the Snake River Basin Court as notification of the corrections.

Thank you for your patience and cooperation, as we have had several water right changes to process. I apologize for any inconvenience this may have caused. If you have any questions concerning the enclosed water rights, please feel free to contact this office.

RE: Change of Ownership of Water Rights

Gentlemen:

Enclosed please find two Notices of Change in Water Right Ownership forms with attached copies of deeds and a map prepared to illustrate the ownership of these water rights.

Water right 65-13267 is split in ownership between Robertson Kennels, Inc. and ~~Robert~~ *Richard* A. and Johnnie L. Robertson. The Bureau of Land Management is the owner of Lot 1 (NWNW), Section 7, T9N, R2W, where 8 acres of water right 65-13267 are used for irrigation purposes. Mr. Robertson is in the process of acquiring this parcel of land but no change in ownership for 8 acres of 65-13267 will be proposed until the change in ownership of the underlying parcel has been completed. The remaining 52 acres of the water right are split with 13 acres going to Robertson Kennels, Inc. and 39 acres going to Richard A. and Johnnie L. Robertson. The split takes place on 40 acre boundaries and is illustrated on the attached map showing both the water right number and the number of irrigated acres in each tract. The map also shows for each tract the recording number of the deed which transferred ownership of that tract to either Robertson Kennels, Inc., recording number 271966, or Richard A. and Johnnie L. Robertson, recording number 271968.

The only parcel of land being conveyed that did not include an entire 40 acre tract or government lot is within the NE1/4 SW1/4, Section 12, T9N, R3W, B.M. The deed conveys land east of the county road that is visible on the attached map. Water right 65-8991 shows 4 acres of irrigation in that tract with a source of Indian Creek. I have verified, using adjudication imagery from your website, all of the irrigation in that tract, and in section 12, is east of the county road. Repeated attempts to print a map to include with this change of ownership, however, failed. Viewing the photography left no doubt the 4 acres of irrigation under 65-8991 in the NE1/4 SW1/4, Section 12, T9N,

R3W, B.M. is east of the county road on land conveyed to Richard A. and Johnnie L. Robertson in the attached deed.

Water right number 65-13267 is being treated for change of ownership purposes as a license since proof of beneficial use was submitted prior to the transaction of the property. Enclosed is a check in the amount of \$225 to cover two splits of water right 65-13267 and \$25 for the change in ownership of water right 65-3905. The remaining rights have been claimed in the SRBA.

If you have any questions or need additional information please contact me at the number above.

Yours truly,

David B. Shaw
Project Manager

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
