MEMORANDUM

TO: File for Claim No. A65-12079

FROM: Jan Shurte

SUBJECT: Claim filing for 1972 priority

Mr. Gordon Colburn came to my office to file a claim for Permit No. 65-12079. At the time he had also brought a copy of an adjudication claim he had filed during the Payette River Basin Adjudication in 1977. This Claim No. 65-08425 was filed for one home with a July 6, 1972 priority date. Also filed on the same well were Claim No. 65-08423 and 65-08424 each for single family domestic with a priority date of 7-6-72. At the time of determination of the final rights, it was recommended that all three claims be disallowed and an application for permit filed instead. In filing the application for permit, the priority date on these three uses was the date the application was filed 1-17-1978. The homes were not all put on the well at the same time; therefore, each home did have a different priority. One domestic use began in 1972 at the time the well was drilled. Service was disconnected to that lot in 1974 and plugged into another lot used for 2 campers. One home was built later in 1974 on another lot using water from this well. Then in 1978 another home was built and hooked up to the well.

Mr. Colburn maintains he should have had Claim No. 65-8425 decreed with a 1972 priority date for his lot, and should not have been told to file an application for permit which gave him a later priority and also because their permit was not decreed in the Payette River Basin Adjudication.

At this time, Mr. Colburn is filing a claim for the 1972 priority date on his lot and filing Claim No. A65-12079 as a safety precaution. He does, however, feel the 1972 date should be recommended at the time of final court action.

PROPOSED FINDING
OF WATER RIGHTS

CIVIL NO. 3667

Dear Claimant:

The Department of Water Resources has presented to the Third District Court a Proposed Finding of Water Rights as a part of the Payette Basin Adjudication procedure. This letter is to notify you, as required by law, of the Department's recommendation to the court concerning the Claims identified below.

We have reviewed the following Claim(s) and are recommending to the Third District Court that it (they) be disallowed for the reason(s) indicated. Each number (65-) applies to a specific Claim that was filed by you or your predecessor. Note that you or your predecessor may have filed claims in addition to those identified below and that the disallowal of this Claim(s) does not necessarily mean you do not have another valid water right described elsewhere in the Findings.

<u>Claim Number</u>	<u>Name and Address</u>	<u>Reason For Disallowal</u>
65-8425	COLBURN, GORDON D. & COLBURN, M. INEZ P. O. BOX 245, PARMA, IDAHO 83660	RECOMMENDED AS RIGHT 65-12079.

There are 10 specific reasons for recommending disallowal of a Claim filed as a part of the Payette Basin Adjudication. I hope the following description of the reason applied to your Claim(s) will explain our recommendation for disallowal to the court.

Recommended As-Right 65-): There are several possible explanations that exist for this reason. Most often, two Claims were filed a few years apart for the same water right. We can recommend only one Claim for each water right; therefore, we recommended that one Claim (not a water right) be disallowed and the water right recommended according to the last Claim filed. You or your successor will receive our proposed finding of that water right.

In other cases, you may have claimed water that is delivered by a ditch company or irrigation district in which case we recommended the water you claimed under their water right because they are the actual holder of the water right and you are a shareholder in the ditch company. By referring to their number in the listing of water rights you can find your property described within the Place of Use for their water right.

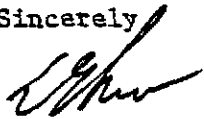

Occasionally, you may have filed a Claim for a Water Right that was not legally developed according to provisions of the Idaho Code. But through our notification you filed the necessary Application For Permit with a new water right number. We have merely recommended the earlier Claim be disallowed and the water right decreed by the Permit number. You will receive our Proposed finding of that water right.

Another possible explanation is you first filed a Claim as a beneficial use right that was actually covered by a previous decree or a license. You also filed a Claim under the decree or license number that then gave us two claims for the same water right. Here we are recommending the Beneficial Use Claim be disallowed and the water right decreed under the Decree or License number.

If you do not agree with these findings you should follow the procedure set forth in Section 42-1410, Idaho Code, which states in part that "Any claimant who desires to object to the proposed findings of water rights report shall file his objections with the court (Third Judicial District) within 60 days of the date of mailing of such report by the Director of the Department of Water Resources and shall also send a copy of such objections to the Director of the Department of Water Resources." Since this mailing constitutes your portion of the report, the 60-day period began with the date of postmark.

Copies of the entire Proposed Finding, including Findings of Fact and Conclusions of Law, are on file for your review at: the County Courthouses in Payette, Emmett, Cascade and Idaho City; the ASCS Offices in Payette, Emmett and Donnelly; the U. S. Post Offices in New Plymouth, Garden Valley and McCall; the schools in Horseshoe Bend and Sweet; various irrigation company offices; and at the Western Region Office of the Department of Water Resources. If you do not have access to these copies, and would like to review the report, please contact this office. If you have no objections, there is nothing more you need to do.

Sincerely

DAVID B. SHAW
Western Region Supervisor
