RE: Water Rights in Reporting Area 15, Basin 65
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in part 1 of basin 65 (the North Fork of the Payette River drainage area). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 120 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Cascade, Idaho City, Emmett, Payette, and Weiser, and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed early next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

KARL J. DREHER
DIRECTOR

September 29, 1999

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Wednesday, October 13, 1999, at 7:00 p.m. in the Senior Citizen Center, 409 School Road, Cascade.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

SRBA CHAMBERS
P.O. BOX 2707
TWIN FALLS, IDAHO 83303-2707

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

A handwritten signature in black ink that reads "B. Wood".

Total number of acres irrigated: 4

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

State of Idaho
Department of Water Resources**WATER RIGHT LICENSE**

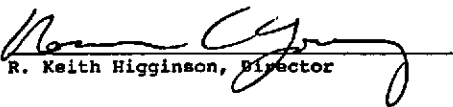

WATER RIGHT NO. 65-12095

CONDITIONS/REMARKS:

7. Single point of diversion located on or near line between NWNE (Lot 2) and NENW (Lot 3), S05, T13N, R04E and SESE, S31, T14N, R04E.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 22ND
day of JANUARY, 1994.

☒ Photo of Diversion and System Attached
(required for all but single household domestic groundwater, and stockwater).

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Water is diverted from Pearis Creek via 15' of 6" pvc pipe to .3 a.f. pond (55'x26'x10'). A 30' piece of 6" pipe allows water from pond to be returned to creek or directly into 2" line & flow to pump (so pump can receive water directly from storage or from directly from creek). A 2" mainline from the pump supplies between 5 & 8 heads for 4 acres of pasture situated North & West of pump. See 1/24/92 memo for more information.

☐ See Remarks on page 4 for continuation

MEMORANDUM

TO: FILE
FROM: STEVE LESTER
DATE: JANUARY 24, 1992
SUBJECT: EXAMS FOR PERMITS 65-12095 AND 65-12608

Permit 65-12095 was filed in 1978 and 65-12608 was filed in 1983. I examined 65-12095 on 8-31-89 and found a confusing situation. Only three sprinklers were in place. I was informed that the owner (out of town on business) had the other unspecified number of sprinkler heads with him. The owner's relative was present but wasn't familiar with the system. She told me that the owner was repairing the system. The pond and pump and 2" mainline were present but it wasn't clear how much irrigated pasture was covered by the pond-pump system. A second visit was made on 10-11-89. Eight sprinklers were in place but the system was shut down for the season. Approximately four acres were covered by the sprinkler system. A measurement could not be made, and I decided to return during the 1990 season to measure the flow. I was not aware of the 9-15-89 Order of Reinstatement for 65-12608 during the 10-11-89 visit.

Instead, another examiner (Mel Schulte) conducted an exam for 65-12608 on 7-9-90. Apparently, it was not clear to Mel that the two permits are for the same system. Mel found the same pond, pump, and four acres of irrigation.

His exam was reviewed by Cindy Hodges on 6-21-91. The recommended procedure is to review both exams together for the common system.

Water is diverted from the creek via a 15' long, 6" PVC pipe to a .3 af pond. A 6" pipe exits the pond and can dump water back into the creek to be subsequently withdrawn via a 2" line connected to the pump and sprinklers. Also, the 2" line can be directly connected to the 6" exit pipe to route pond water to the sprinkler system. In this manner the pump can utilize live flow or stored water for irrigation use. See photo #2 in 65-12095 for the direct connection from storage to irrigation.

RATE OF FLOW

Mel's 1990 information leads to several flow estimates.

- 1) 5 gallon bucket @ 5g/4s = .17 cfs $\pm$.02 cfs from chart.
- 2) Sprinkler measurement of .05 cfs (5 heads found in 1990 although 8 found on 10-11-89 visit; 1990 calculation used 5 heads).
- 3) HP equation where $hp=1.5$, $eff=.7$, $psi=50$ (from sprinkler test), $z=@5'$ vertical lift to pump. Do not use 65' length of 2" pipe from creek to pump. Then, $Q = .08$ cfs.
- 4) Additionally, expected flow in 2" pipe at assumed velocity of 5 fps:
 $Q = VA$ where $A = \pi \times \text{radius squared}$ (radius in feet). $Q = .11$ cfs.

The 5 gallon bucket method establishes the upper limit of the irrigation flow. The sprinkler test shows about .05 cfs applied to the land. The HP equation and expected flow calculations shows that @ .08 cfs could be delivered by the pump system.

Conclusion: recommend .08 cfs for 4 acres in permit 65-12095.

For 65-12608, the live flow irrigation is completely covered in the other permit. The diversion to storage and storage components can be covered by 65-12608. Because irrigation can occur from live flow and from the .3 af pond as explained above and due to the amount stored in 24 hrs. @ the recommended irrigation flow in 65-12095 (.08 x 1.9835 = .16 af), irrigation storage and irrigation from storage should be included in 65-12608. The remaining question deals with the rate for diversion to storage via the 6" pipe from the creek to the pond. No measurement of this rate was possible (submerged pipe). Instead, a theoretical estimate can be made.

DIVERSION TO STORAGE *

Given: 6" PVC pipe, 15' long, estimated 1' head from creek to pond.

Find: rate of flow

Method: $Q = VA$ where V is velocity and A is area of pipe.

$A = \pi \times \text{radius squared}$ (radius in feet) and radius = $(6/12)/2 = .25$

$A = \pi \times .25 \times .25 = .196$

For V, since head = velocity squared divided by $2 \times g$, solve for V where head is 1 and g is 32.2; $V = 8$ fps. This seems rather high for the conditions observed in the field. Therefore, assume velocity is @ 5 fps and solve for losses. Then recalculate head and substitute adjusted head value into above equation and solve for V. Use this velocity estimate in $Q = VA$.

Estimate losses for pipe entrance & exit plus loss in pipe length. Use the Hydraulic Handbook for entrance/exit loss equations. Use Rainbird guide to estimate loss in 15' length (see attachment).

$$\text{Entrance/exit loss} = \left[K_1 \times \frac{(V \times V)}{(2 \times g)} \right] + \left[K_2 \times \frac{(V \times V)}{(2 \times g)} \right]$$

$$= (K_1 + K_2) \left[\frac{(V \times V)}{(2 \times g)} \right]$$

above is simplified version of loss equations

where $V = 5$, $g = 32.2$, $K = 1 + .85$ (tables)

$$= 1.85 \times \frac{(5 \times 5)}{2 \times 32.2} = .72$$

* methodology per DRT - if have questions, contact him for clarification.

Length loss = .17 from attachment

Total losses = .72 + .17 = .89

Total head available = 1 - .89 = .11

Solve for V where head = .11 = $\frac{V \times V}{2 \times g}$ where g = 32.2

V = sq. root of .11 x 64.4 = 2.66 and A = .196 (from above)

Estimated flow from creek to pond = Q = VA = 2.66 x .196 = .52 cfs.

Recommend for 65-12608: .52 cfs div. to storage 1/1-12/31
.3 af irrigation storage 1/1-12/31
.3 af irrig. from stor. 4/15-10/15
.3 af wildlife storage 1/1-12/31
Total .52 cfs and .3 afa (same acres as 65-12095)

OVERLAP

Both permits are for same diversion and same acres. Acceptable to have full live flow volume plus storage volume from same creek. No other surface water used on property according to water right and adjudication databases. Owners have well 65-07340 for domestic and irrigation of adjacent land. Other wells for other property are located in SESE S.31.

SRBA CLAIMS

No claim is required for 65-12608 due to proof filing date of 6/20/89. However, 65-12095 does require a claim. Proof was submitted in 1983 and the exam fee was paid on 10/31/88 (late). Owners were notified in SRBA per ML3. No claim was found when searching AJQ1, AJ2, AJQ4, and non-data entry records. A letter was sent to owners on 1/24/92 requesting that a late claim be filed within 30 days to avoid need to cancel permit.

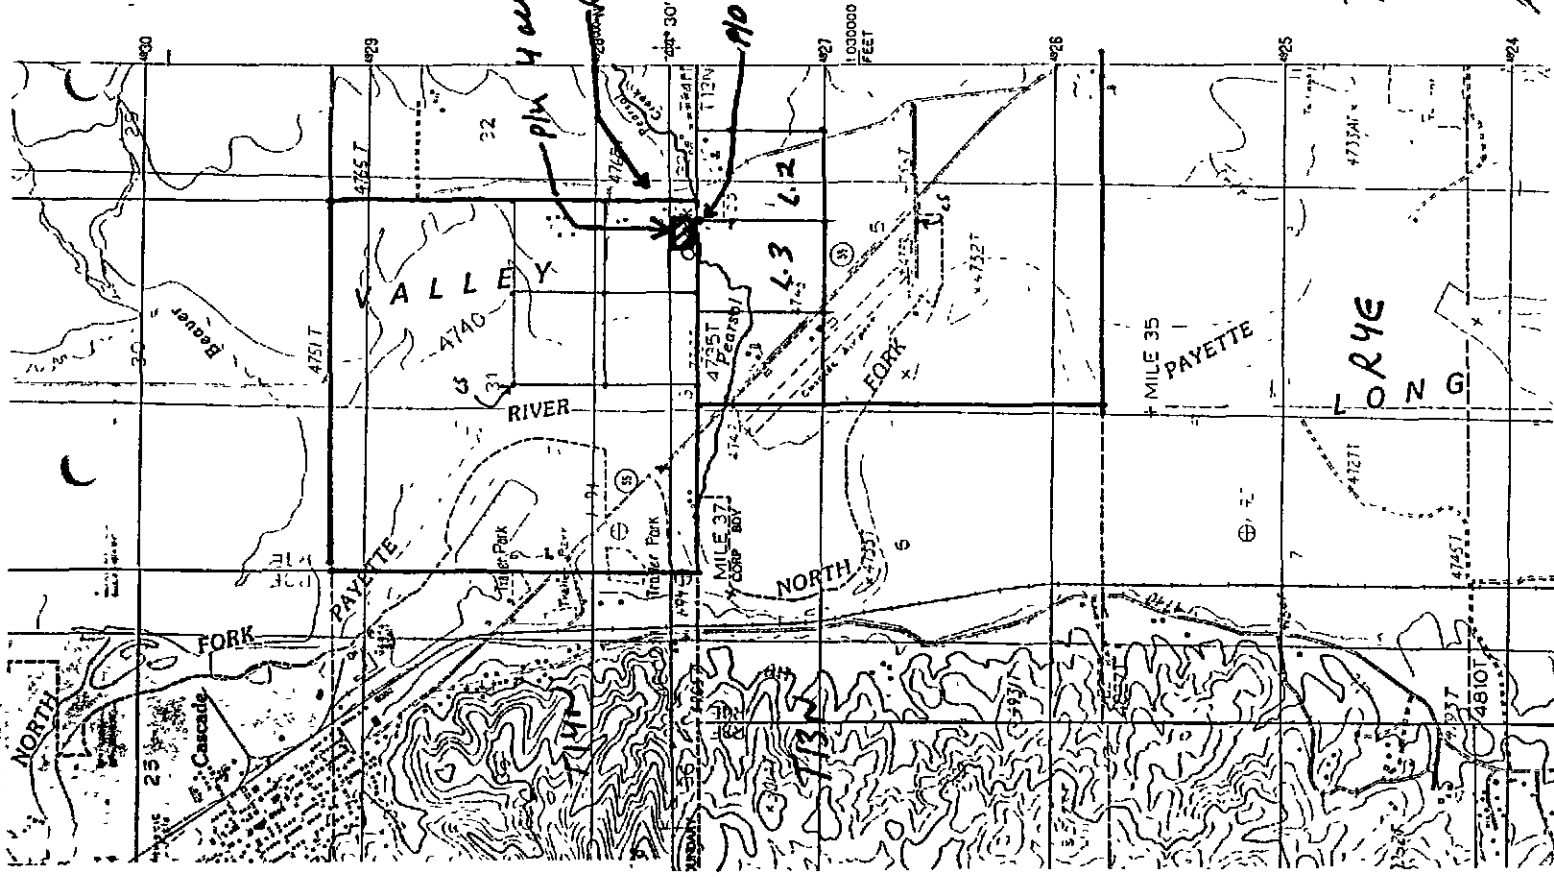

*Claim 65-12095 received with \$54 fee on
2/11/92 in response to my 1/24/92 letter to
owners.*

For pld location, was into 65-12095 Exam.

OK to complete licensing process now.

RE: Notice of Claim to a Water Right in the Snake River Basin
Adjudication for Permit No. 65-12095, Valley County

Dear Mr. and Mrs. Yorgensen:

On November 2, 1988, you visited this office to file an adjudication claim on the above-referenced permit. However, it was discovered that this permit had been lapsed, and a claim could not be filed based on a lapsed permit. On March 7, 1989, this permit was reinstated, and now an adjudication claim can be filed based on this permit.

Enclosed is a computer-generated copy of claim no. A65-12095 based on the information we have on record. Please review the claim for accuracy. If the claim is satisfactory, please sign the form, having your signature notarized, and return it to this office with the \$54.00 filing fee by January 8, 1989.

Also enclosed is a blank claim form with instructions. This form can be used if you wish to claim the water right in a manner that is different than what appears on the computer-generated form.

If you have any questions or need assistance, please contact this office.

Sincerely,

Carter Fritschle
Senior Water Resource Agent
Adjudication Bureau

RE: Request for Extension of Time

Dear Mr. and Mrs. Yorgensen:

I have received and reviewed your request for an extension of time. I am unable to make a determination at this time as to whether or not to grant the extension.

It is a policy of this department to not grant "open-ended" extensions. If you will fill in the line, "Claimant requests an extension to" with a date, I will be most happy to give your request serious consideration.

If you have any questions, please do not hesitate to contact this office.

Yours Truly,

David B. Shaw

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For IRRIGATION purposes from 4/15 to 10/15 amount 0.08 or 12.0

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 0.08 (cfs) and/or (b) 12.0 (acre feet)

8. Total consumptive use claimed is 8.0 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) Other uses under right 65-12608

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
14N	4E	31																4	4

Total number of acres irrigated 4

11. In which county (ies) are lands listed above as place of use located? Valley

12. Do you own the property listed above as place of use? Yes ☒ No ☐
If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above.
65-12608, 65-07340 or None ()

14. Remarks:
Same diversion system as 65-12608.
Same acres as 65-12608.
Pond is covered by 65-12608 & is 0.3 a.f. in size.

MICROFILMED

SEP 24 1992
Copies: White - State, Yellow - Claimant

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief
