KARL J. DREHER
DIRECTOR

February 4, 2000

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Tuesday, February 22, 2000, at 7:00 p.m. in the Music Room at Garden Valley High School, Garden Valley, Idaho.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

Barry Wood

Administrative District Judge and
Presiding Judge of the
Snake River Basin Adjudication

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in reviewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River Basin where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source is tributary is also shown.

Priority Date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to have their water rights satisfied before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made on the water, such as irrigation, domestic, or stockwater.

Period of Use: The period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation Uses: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes the other purposes of use.

Point of Diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 1/4 section or 1/64 section) within which the point of diversion is located.

"B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and redivision. Points of injection and redivision are indicated where water is diverted from one source, injected into another source, and then rediverted, or where water from one source is exchanged with water from another source.

Place of Use: The place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remarks, if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of Right: The basis of right may be a decree (where the water right was previously determined by a court); posted notice (an historical method of appropriation that is no longer available); beneficial use (another historical method of appropriation that is available today only in very limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your portion of the water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, if it is more than 1/2 acre, type and number of stock if your portion of the right includes stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

THE 80' DEEP WELL HAS A 6" CASING. DEPTH TO WATER IS 40'. FOUR 1/2" PIPES EMERGE FROM WELL IN 2 PAIRS. ONE PIPE HAS A VALVE, WHICH IS FOUND 14" FROM CENTER OF CASING. ONE PAIR OF PIPES RANS 75' TO A CABIN AND SMALL (1/2 HP) CIRCULATING PUMP. THE OTHER PAIR LEADS 180' TO A CABIN AND 1/2 HP CIRCULATING PUMP. HEAT EXCHANGE COILS ARE LOCATED AT EACH CABIN AND IN THE WELL. WATER IS THUS CIRCULATED IN A CLOSED SYSTEM FOR HEATING THE TWO CABINS AND SHOP. PREVIOUSLY, A 1 1/2 HP SUBMERSIBLE PUMP (UNKNOWN BRAND) WAS IN THE WELL, BUT THIS WAS REPLACED BY THE TWO SMALLER PUMPS.

1 LINE BRANCHED TO SHOP WITH A HEATING COIL, SHOP LINE RETURN TO CABIN COIL, COMPLETING THE CLOSED SYSTEM.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

- 1) CFS IS LIMITED TO .04 FOR HEATING TWO HOMES BASED ON EXAMINATION
PCE LETTER SUBMITTED BY L. J. M. FREEMAN.
- 2) SYSTEM IS CLOSED, THUS NO PROBLEM WITH CONDITION OF APPROVAL, PG. 4 OF PERMIT.
- 3) HP EQUATION YIELDS .02 CFS, BUT THIS SHOULD NOT BE A LIMITING FACTOR SINCE
THE FIGURE IS NOT A RESULT OF A PRIMARY WATER MEASUREMENT.
- 4) OVERLAP ANALYSIS:

PD: ALL ARE SURFACE WATER EXCEPT 65-12386 (SEPARATE WELL, HEATING) AND 65-7595 (SEPARATE
WELL, DOMESTIC), NO CONFLICT.

P.U.: HEATING IN WR'S 65-12302, 65-12396, 65-12392, 65-4002A, 65-7593; HEATING & DOMESTIC IN WR'S

DOMESTIC, AND HEATING IN WR 65-7238 (S AC TRIGATED). ALL THOSE WR'S REPRESENT
DIFFERENT PLACES OF USE THAN 65-12287. NO CONFLICT.

RE: VOLUME RECOMMENDATION

DATE: 15-JAN-1990

=====

Estimate of Reasonable Volume

HEATING

This right heats two homes and a shop. Using the flow rate and an assumed heating season:

$V = [cfs \times 1.9835 \times hrs/day \times days/yr] \times 3$ assume: 14hrs/day
 $V = [0.04 cfs \times 1.9835 \times 14/24 \times 212] \times 3$ 212 days/yr
 $V = 29.4 AFA$

However, this exceeds the total output of the well:

$V = 0.04 cfs \times 1.9835 \times 365$
 $V = 29.0 AFA$

Allow the smaller amount when licensing.
