To Whom It May Concern:

Some controversy apparently exists over the use of a spring or springs near the South Fork of the Payette River adjacent to the properties of James M. Mills (Richard Knoblock, lessee) and Richard and Linda Jenkins. The purpose of this letter is to provide information about the water rights to the spring(s) and copies of field reports about those water rights.

Mills holds the first right (65-10383) to the springs for .06 cubic feet per second (cfs) or 27 gallons per minute (gpm) during the irrigation season and .04 cfs (18 gpm) at other times. This water right was investigated under the authority of Title 42, Chapter 14, Idaho Code. The other water rights to the springs are held through the authority of Title 42, Chapter 2, Idaho Code. The Jenkins have the second diversion (65-12406) for .04 cfs (18 gpm) as water is available from April 15 to October 15 for domestic use. Mills holds a permit (65-12581) for more water as the third diversion for .08 cfs (36 gpm) throughout the year as water is available. These water rights and permits are detailed on the attached table.

The location of the diversion structures from these springs were investigated on April 26, 1982. A copy of that field report and system sketch is enclosed. One of the diversion structures may have been relocated since that date.
