RE: Snake River Basin Adjudication
Claim #A65-12525 - Valley County

Dear Mr. & Mrs. Irwin:

We are returning your Notice of Claim to a Water Right filed for your property in Valley County. We are allowing you this opportunity to modify or submit an optional claim.

You submitted a claim in November, 1988, which listed Permit No. 65-12525 as your basis of claim. You claimed domestic and stockwater purposes for the water use. While reviewing your claim, we noted that the original permit included irrigation of 5 acres.

We have created a computer-generated Notice of Claim based on the information on file from that permit which includes the irrigation of 5 acres. If you do not wish to claim the irrigation use, you certainly may use the form you initially completed. However, irrigation can not be claimed on that form. Therefore, you may, as an option, submit the computer-generated claim form. You will need to have your signatures notarized on the optional form. Also, there is a filing fee which must accompany the submission of these claims. If irrigation is not claimed, the filing fee is \$25.00. If irrigation of 5 acres is claimed, the filing fee is \$55.00. Please check the instructions for additional information.

If you choose to claim only domestic and stockwater, you should be aware of a deferral option regarding this claim. We have enclosed an informational pamphlet which will give you information about this option.

Please return the documents to this office at my attention. If you will make these corrections before April 29, 1989, you will not be assessed a late filing fee. Please do not hesitate to contact this office if you have any questions or concerns.

Sincerely,

for Donald V. Shaff

CONDITIONS/REMARKS:

- The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency. This water right is appurtenant to the described place of use. This right is subject to all prior water rights and may be forfeited by five years of non-use. Modifications to or variance from this license must be made within the limits of Section 42-222 Idaho Code or the applicable Idaho law.
