CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

Dear Mr. Daws:

In the final review of your water right for licensing a question has come up as to which 12 acres your water right covers. The question was as to whether there was an overlap of acres on your two water rights.

Your earlier water right No. 65-6591 covers 19 acres in the NENE and 2 acres in the NWNE, Sec. 15, Twp. 8N, Rge. 5W. From my exam last summer the water right No. 65-12623 should cover an additional 6 acres in the NENE and 6 acres in the NWNE of Sec. 15. However, at that time I did not have an aerial photo to exactly designate those 12 acres. To avoid further questions on these acreages would you please outline the 12 additional acres on the enclosed aerial photo and return it to me. I can then submit the photo with the exam and expedite licensing.

I hope this has not caused you any inconvenience and your cooperation in this matter is appreciated. If you have any questions, please contact me.

Sincerely,

JAN GROVER
Senior Water Resource Agent
