RE: Snake River Basin Adjudication

Dear Mr. and Mrs. Patterson:

We are returning your Notice of Claim to a Water Right filed for your property in Valley County and your check #2730 in the amount of \$60.00. We have noted some problems with your claim which we would like you to correct.

The first item is #8, total consumptive use. The department recommends two acre feet per annum per acre for your area, making your total consumptive use for 10 acres, 20 acre feet per annum. If you wish to claim more than this amount, please describe your own consumptive use in this space, otherwise we will assume the standard amount.

After you have obtained the notary public's verification of your signature at the bottom of the second page, please return these materials to this office at my attention for processing. If you will return these materials prior to February 6, 1989, you will not be assessed a late filing penalty.

COMMENCEMENT NOTICE

**TO: ALL PERSONS OWNING RIGHTS TO THE USE OF WATER
FROM THE SNAKE RIVER BASIN WATER SYSTEM.**

**SEE SPECIAL NOTICE TO PAYETTE, LEMHI, BASIN CREEK DECREE
WATER RIGHT HOLDERS ON PAGE THREE (3).**

YOU ARE HEREBY NOTIFIED THAT:

On November 19, 1987, the District Court for the County of Twin Falls issued an order commencing a general adjudication of water rights from the Snake River Basin water system in Idaho. A general adjudication is a court case which will result in a decree determining all water rights from the water system. The purpose of the adjudication is to get an accurate schedule of water rights to assure the proper delivery of water in times of shortage. The purpose of this notice is to inform you of the commencement of the adjudication and your legal responsibilities at this stage of the adjudication.
PLEASE CONTINUE.

GENERAL REQUIREMENT TO FILE NOTICE OF CLAIM WITH IDWR

Idaho Code Section 42-1409 requires all persons owning water rights within the boundaries of the Snake River Basin water system in Idaho to file a Notice of Claim with the Idaho Department of Water Resources (IDWR) for each water right, except for certain water rights specifically excluded by law. "Water rights within the boundaries of the Snake River Basin water system in Idaho" includes rights to the use of water from any water source, including streams, springs, lakes, ground water, developed water, waste water, or any other source within the boundaries of the Snake River Basin water system in Idaho. A map showing the boundaries of the water system is included at the end of this notice.

**MICROFILMED
SEP 24 1992**

FAILURE TO FILE A REQUIRED NOTICE OF CLAIM WILL RESULT IN A DETERMINATION BY THE COURT THAT THE WATER RIGHT NO LONGER EXISTS.

A Notice of Claim must be filed for all water rights based upon Idaho state law. Water rights based upon Idaho state law include historic use rights (based upon diversion and application of water to a beneficial use, regardless of whether the water right has been recorded with IDWR pursuant to Idaho Code Section 42-243), decreed rights (based upon a decree of a state or federal court), licensed rights, or appropriation permits if proof of beneficial use was filed before November 19, 1987 (based upon a license or permit issued by IDWR, which used to be called the Idaho Department of Water Administration, the Idaho Department of Reclamation, and the State Engineer's Office). A Notice of Claim or negotiated agreement must be filed for all water rights based upon federal law. Water rights based upon federal law are generally reserved rights claimed by the federal government, by or on behalf of the Indian Tribes, or by subsequent owners of former federal reserved lands.

EXCEPTIONS TO GENERAL REQUIREMENT TO FILE NOTICE OF CLAIM

A Notice of Claim may but is not required to be filed for permits for which proof of beneficial use was filed on or after November 19, 1987. The director of IDWR may at a later date require holders of such permits to file a Notice of Claim. If the director does issue such an order, the permit holder will be notified by mail. A Notice of Claim may not be filed for an application for permit until the application has been approved by IDWR.

A Notice of Claim may but is not required to be filed for water rights arising under Idaho state law that are used solely for fire-fighting purposes or solely for in-stream livestock use as defined by Idaho Code Section 42-113. The director's report (which will contain the director's recommendations as to all water right claims based upon state law and will be filed with the court after all claims have been taken and investigated by IDWR) will contain general conclusions of law recognizing and protecting the use of water for fire-fighting purposes and for in-stream livestock use.

A person using water from the Snake River Basin water system is not required to file a Notice of Claim if the water user is not the owner of the water right, but the water user should make sure that the owner has filed a Notice of Claim. For example, a water user need not file a Notice of Claim where the water user receives water solely by virtue of ownership of shares of stock in a water delivery organization, or solely by virtue of being located within the boundaries of a water user organization, if the water delivery organization holds legal title to the water right and if the water delivery organization has filed a Notice of Claim. Examples of water delivery organizations include cities, water utility companies, and irrigation districts, among others.

FEEES AND DEADLINES FOR FILING NOTICES OF CLAIMS

Idaho Code Section 42-1414 requires each person who files a Notice of Claim, except those exempted by law, to pay a filing fee. Failure to pay the fee will result in rejection of the Notice of Claim.

Claims-taking will generally be done on a county-by-county basis for about two years following issuance of the commencement order. The county where Notices of Claims are required to be filed at this time is stamped in the upper right-hand corner of this notice. The deadline for filing notices of claims to water rights in this county is stamped just below the county stamp. Late-filed Notices of Claims will be accepted prior to filing the director's report with the court, but failure to file a Notice of Claim by the deadline may result in assessment of a late fee of \$50.00 or 15% of the original filing fee, whichever is greater.

NOTICE OF CLAIM FORMS AND INSTRUCTIONS

Notices of Claims must be filed on forms prepared by IDWR. The Notice of Claim forms and instructions for completing and filing the forms are available at the following locations.

A 3HP cintrifigal portable pump supplies water to ~1.6 acres of trees via 2" portable pipe and furrows. According to the owner, the water flows in May and June only. At the time of the exam, the stream bed was dry. Even with limited irrigation, the owner has sufficient water to give his tree starts a boost and his existing trees a drink. No other rights are used. SRBA claim A65-12694 was filed although proof was due and made after 1987.
