 - ☐ This water right was not recommended, but should be recommended with the elements described.

E. REASONS SUPPORTING EACH OBJECTION(S):

The Bureau of Reclamation objects to the separate stream provision of the Director's Report for Basin 65, Part III. These streams should be administered as part of the Payette River System in order to adequately protect water rights in the Payette River subbasin.

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

RE: Jennaro Claims

A65-17885 - 17890 and A65-17892 - 17933

All of the above claims are in stream stockwater use. (The one missing, A65-17891, is a domestic well.)

The first set, A65-17885 through 17890 are considered "in stream", however, I may have been in error when I accepted them. The diversion works say "pond". I have flagged them for field inspection.

A65-17892 through 17903 appear clear cut; diversion works state "in stream" with nothing else in the diversion works.

A65-17904 through A65-17933 should be looked at very closely. The claims initially came in on 11/23/88 with diversion works being tanks, pipes, etc. I spoke with Steve Bradbury, an attorney and suggested that they might consider applying the money to applications for permit since they had not been claimed in the Payette Adjudication. As a result of that conversation, I returned these 30 claims. He was given 30 days to decide. He ultimately returned them, rewritten as being instream. I told him they would be field checked, and the decision was to submit them anyway. They have been flagged for field exam.

Jan - this memo is for your info and to do with what you choose. I haven't made copies for any of the attached claims.

Helen
