RE: Jennaro Claims
A65-17885 - 17890 and A65-17892 - 17933

All of the above claims are in stream stockwater use. (The one missing, A65-17891, is a domestic well.)

The first set, A65-17885 through 17890 are considered "in stream", however, I may have been in error when I accepted them. The diversion works say "pond". I have flagged them for field inspection.

A65-17892 through 17903 appear clear cut; diversion works state "in stream" with nothing else in the diversion works.

A65-17904 through A65-17933 should be looked at very closely. The claims initially came in on 11/23/88 with diversion works being tanks, pipes, etc. I spoke with Steve Bradbury, an attorney and suggested that they might consider applying the money to applications for permit since they had not been claimed in the Payette Adjudication. As a result of that conversation, I returned these 30 claims. He was given 30 days to decide. He ultimately returned them, rewritten as being instream. I told him they would be field checked, and the decision was to submit them anyway. They have been flagged for field exam.

Jan - this memo is for your info and to do with what you choose. I haven't made copies for any of the attached claims.

Helen
