HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is $7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

FEB 27 2003

Dear Grazing Permittee:

Recently, we have received some much-needed moisture over the past several weeks, however, the drought situation and outlook for much of Idaho still remains severe to extreme. Long-range forecast indicates that the chances of recovering from drought in this coming year are very poor. Much of the snow pack will likely be adsorbed by the soil and will not make it to the ground water. Run-off affecting reservoirs, springs, and stream flows are expected to be at lower levels than previous years. There has been little snow pack at the mid to lower elevations which may reduce the number of water sources available for livestock, wild horse and wildlife use. According to the US Seasonal Drought Outlook, the outlook through April 2003 is for continued drought conditions except some possible improvement in the south central part of Idaho.

The Bureau of Land Management (BLM), Lower Snake River District (LSRD) is concerned about the possible effects of a drought year, given that we have only recently begun to recover from the effects of the prolonged drought of the late 1980's and early 1990's. It has been recognized that severe drought reduces plant vigor and food reserves in perennial plants, reducing root growth, plant production, and soil cover. Continuation of current conditions with the limited amounts of snowfall this year could limit the distribution and longevity of stock water, directly affecting scheduled grazing use for the 2003-grazing season. Without the average winter snowfall and spring precipitation, stock water may be limited and rangeland conditions might not promote adequate forage growth to sustain livestock grazing on public lands within your allotment(s).

It has been stated in Dr. John F. Valentine's book *Grazing Management* that "continued stocking at normal levels during moderate or sever drought is probably the greatest cause of range deterioration." Without proper management adjustments, drought could undermine the long-term health and productivity of the rangelands.

Depending on the timing and amount of future moisture (received prior to spring turnout), grazing management changes may possibly be necessary for the 2003 grazing season to address concerns with water shortages and reduced plant productivity. I would like to suggest that you begin to consider the possibility that continuation of current drought conditions may necessitate possible changes for the 2003 grazing season such as delayed turnouts, changes in season of use, temporary livestock reductions, or even rest of pastures or allotments.

SCANNED
APR 24 2003

We understand the hardships drought conditions create, and would like to help you find solutions to insure the long-term productivity of the public lands is protected. It is important that we begin now in planning for the 2003 grazing season and work together to find ways to lessen the hardships created by drought. I would recommend that permittees, who are planning to graze livestock this spring, begin to consider drought preparations and planning now. I suggest that you contact the BLM Rangeland Management Specialist who administers the allotment(s) you graze livestock on and make plans for an allotment visit prior to spring turnout. These field visits would allow you and your BLM Rangeland Management Specialist to assess impacts of drought and, if needed, start to prepare drought plans on the allotment(s) you graze livestock in for the 2003 grazing season.

I appreciate the effort many of you have made in previous drought years, and more recently, when many of you recognized the drought severity in your fall and winter range and took the initiative to make adjustments in your stocking rates, remove livestock before the end of your grazing periods, or taking non-use this past fall and winter within the allotment(s) you graze your livestock in.

I look forward to your continued cooperation involving drought management and the long-term health and productivity of your grazing allotment(s).

Sincerely,

Howard Hedrick

Snake River Basin Adjudication Claim A65-00212A

Dear Mel:

Pursuant to your request at our recent meeting, enclosed please find a facsimile copy of the Claimant Acknowledgement of Change in Attorney in Snake River Basin Adjudication form executed by Joseph Jennaro. Please cause this form to be filed with the IDWR and SRBA, if necessary. Please forward copies of the IDWR's proposed findings to me when you send the originals to the Jennaros.

Thank you again for your assistance and professional courtesies. Please call if you have any questions.

Very truly yours.

RE: Jennaro Claims
A65-17885 - 17890 and A65-17892 - 17933

All of the above claims are in stream stockwater use. (The one missing, A65-17891, is a domestic well.)

The first set, A65-17885 through 17890 are considered "in stream", however, I may have been in error when I accepted them. The diversion works say "pond". I have flagged them for field inspection.

A65-17892 through 17903 appear clear cut; diversion works state "in stream" with nothing else in the diversion works.

A65-17904 through A65-17933 should be looked at very closely. The claims initially came in on 11/23/88 with diversion works being tanks, pipes, etc. I spoke with Steve Bradbury, an attorney and suggested that they might consider applying the money to applications for permit since they had not been claimed in the Payette Adjudication. As a result of that conversation, I returned these 30 claims. He was given 30 days to decide. He ultimately returned them, rewritten as being instream. I told him they would be field checked, and the decision was to submit them anyway. They have been flagged for field exam.

Jan - this memo is for your info and to do with what you choose. I haven't made copies for any of the attached claims.

Helen
