9. ☐ **Place of Use**

11. **I object because:**
 - ☒ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. **REASONS SUPPORTING OBJECTION(S):** This water right is claimed solely pursuant to state law. Claimant's assertions that Congress gave permission to private parties to operate on the public domain and that Congress passed various acts insuring that water sources on the public domain were not monopolized does not provide a basis for a water right under state law. Alternatively, the United States has failed to establish any legal and/or factual basis for any claimed priority date for stockwater purposes with a date prior to the enactment of the Taylor Grazing Act, June 28, 1934.

The State further objects to this claim as to any part based on federal law as the claimed source is declared tributary to a flowing stream and so cannot be based upon the executive order known as Public Water Reserve 107 (April 17, 1926).

The State reserves the right to amend this objection as to any part of this claim based on federal law, based on the final decision reached in Basin-Wide Issue #9 (PWR 107) (Idaho Supreme Court No. 23587).
