RE: Subcase No. 65-22544

Dear Mr. & Ms. Hedge:

Enclosed please find a document entitled "Standard Form 5 – Stipulated Elements of A Water Right" (commonly referred to as SF 5) which has a revised recommendation attached. As you know, the State Department of Lands filed an objection to your water right recommendation stating that a point of diversion and a portion of the place of use were located on state lands. Sue Bock from IDWR's Western Region notified the state office that you filed an Amended Claim deleting the State Department of Lands' portions of your claim.

While we appreciate your attempt to resolve this matter by filing an amended claim, the proper procedure now that an objection has been filed with the SRBA Court is the document enclosed, a Standard Form 5.

Please review the new recommendation which is attached to the SF 5. If all the information is correct, please sign and date the first page of the original and initial the page entitled "Recommendation of Water Rights Acquired Under State Law". After you have signed and initialed the originals, please forward them to : Steven Schuster, Deputy Attorney General, Natural Resource Division, Idaho Department of Lands, P.O. Box 83720, Boise, ID 83720.

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

RE: Water Right Application #65-22544

Dear Ms. Bock:

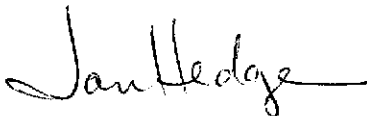

On April 5, 2001, we applied for water rights (application #65-22533) on our property located in Section 18, Township 7N, Range 2E in Boise County. We recently received the attached "Objection Form", and on further review have discovered an error on our original application.

Mistakenly, I included a small portion of State of Idaho land in the description of the point of diversion. I would like to amend the application, so the description only includes the stream which runs on or across our own property.

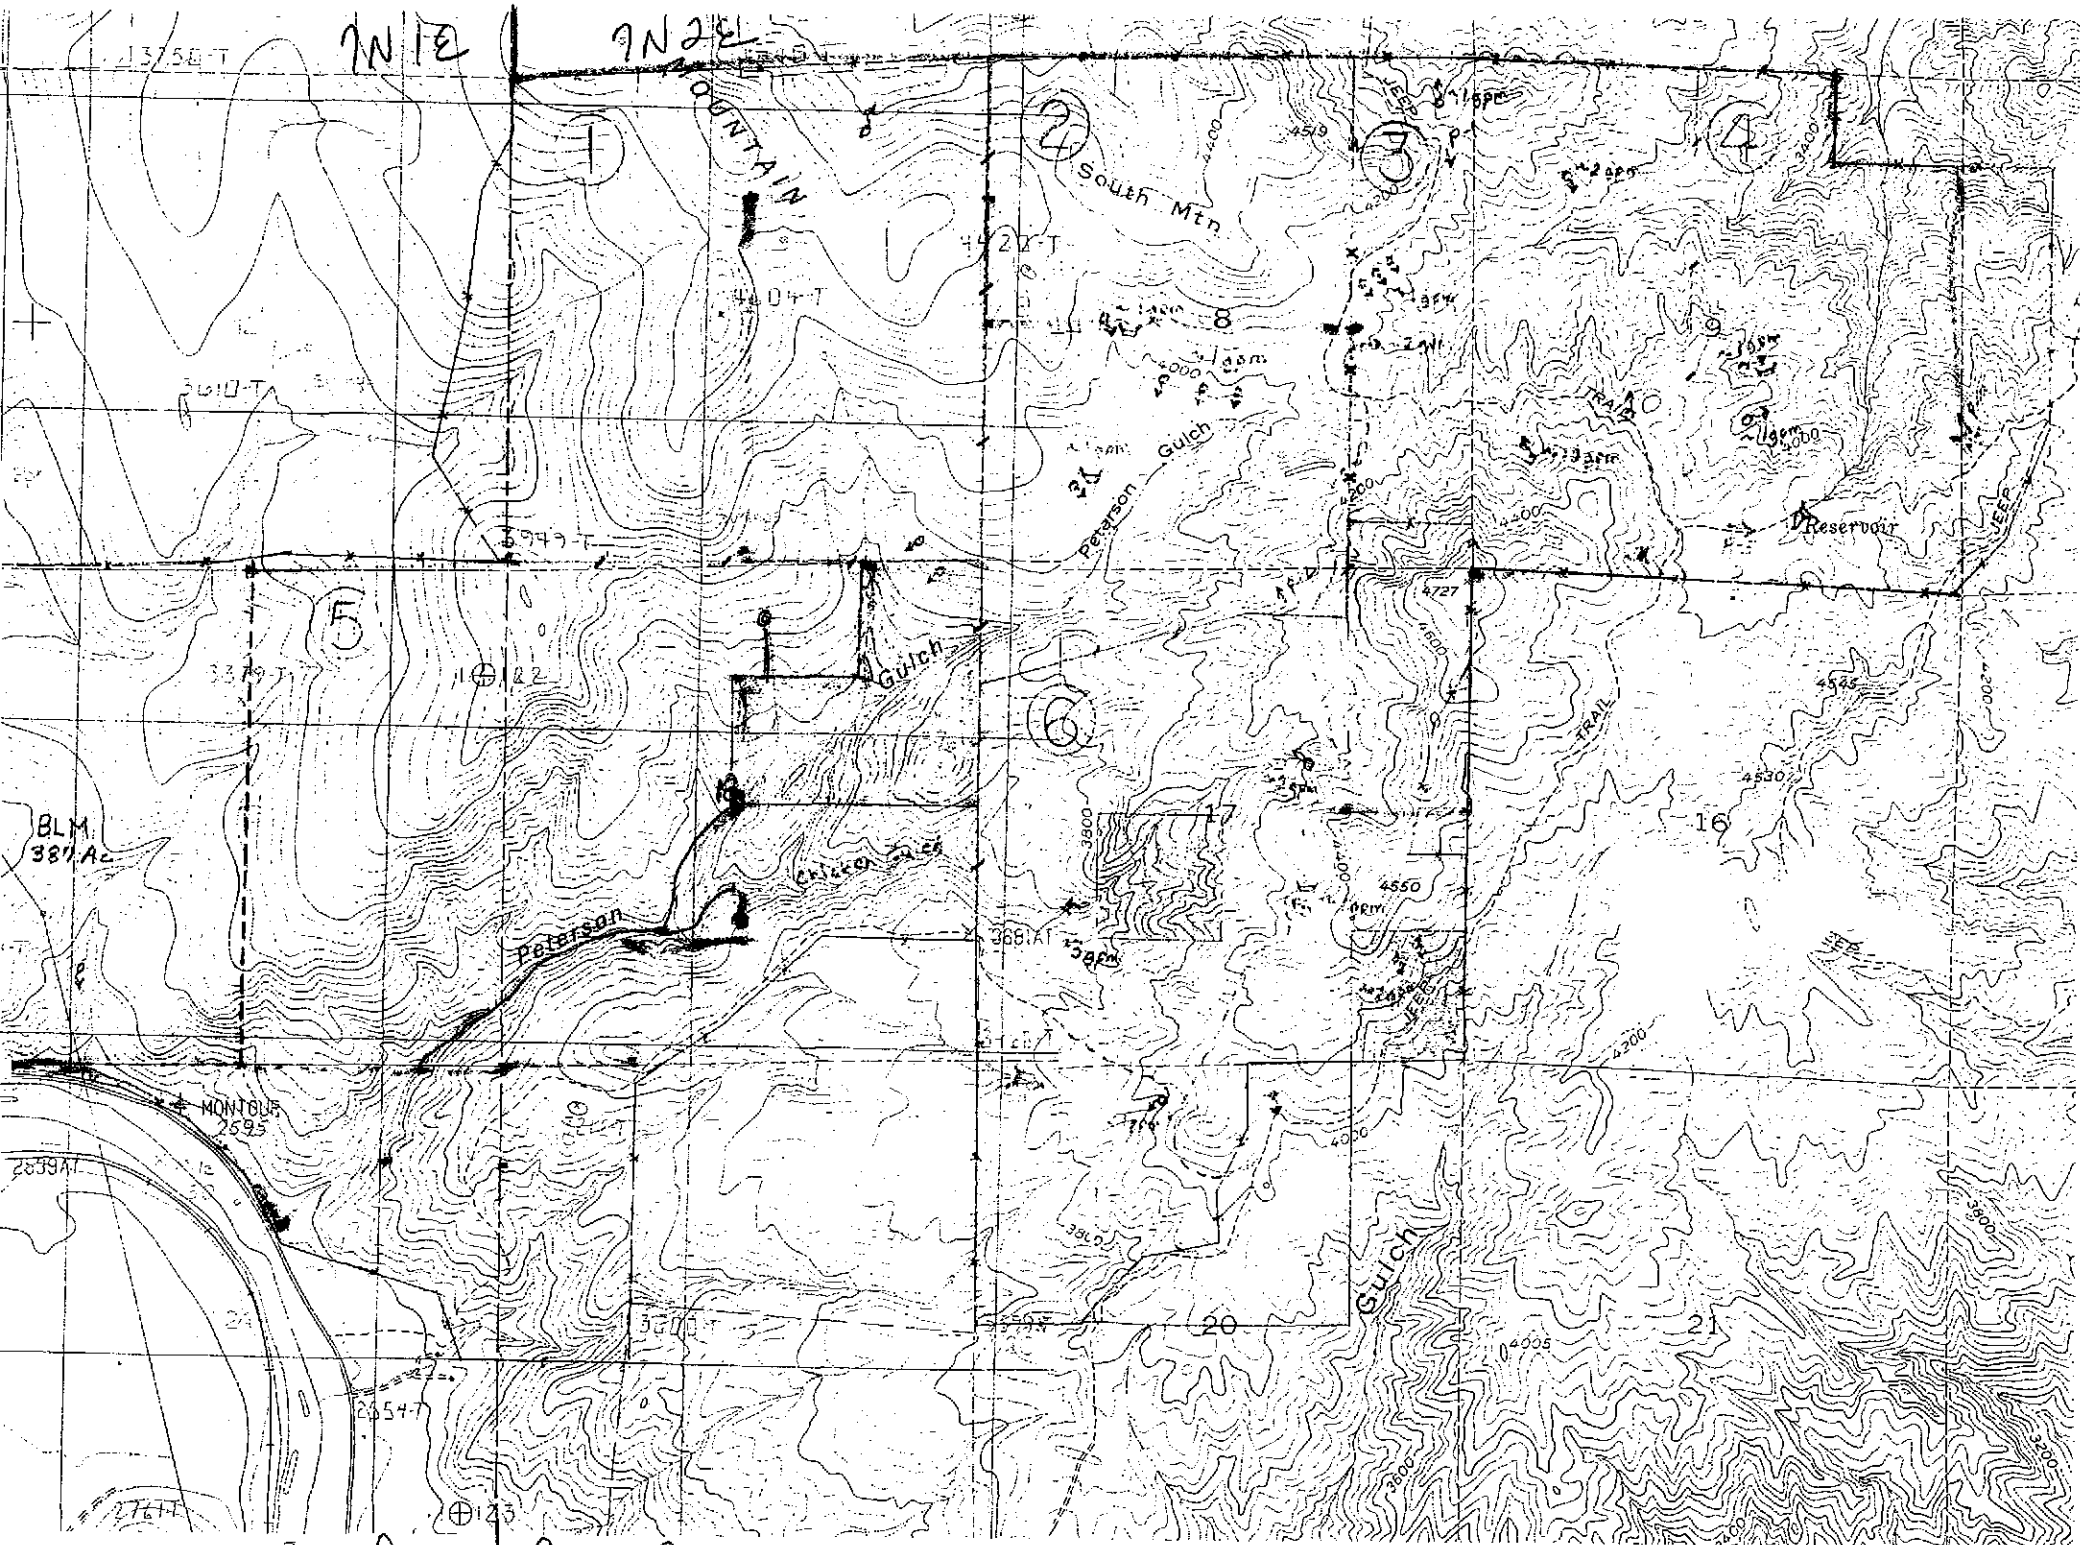

Attached is an amended application. Please submit this one to replace the original dated 6-25-01 (also attached).

Thank you for your help in this matter.

10. **I object because:**
 - ☐ This water right should not exist.
 - ☒ This water right was not recommended, but should be recommended with the elements described above.

REASONS SUPPORTING OBJECTION(S):

The State of Idaho, through the Idaho Department of Lands, is the owner of a portion of the land upon which use is claimed. This land is State Public School endowment land. This land is more particularly described as the SW¼NE¼ of Section 18, Township 7 North, Range 2 East, Boise Meridian. The claimant does not have a valid water right for use on the endowment land because a private claim cannot be made on such lands.
