	)	WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described as recommended in the director's report with the following additional language added to the "*Other Provisions Necessary for Administration*":

Basin 65 General Provisions No. 3, the Separate Streams General Provision, does not apply to appropriations of water after October 18, 1977.

This water right shall be administered as being from a separate source pursuant to Basin 65 General Provision No. 3. If the holder of this right seeks to change the right pursuant to Idaho Code § 42-222 or successor statute, nothing in this general provision shall preclude any other person or entity from demonstrating that such change in use would cause injury to its water right or from receiving any relief provided by law in the event of injury.

Re: Original Notice of Claim to a Water Right No. 65-22720

Renumbered Notice of Claim to a Water Right No. 65-22768

Dear Claimants:

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim with a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time. You will be notified of any future action taken on this claim.

Also enclosed is a copy of the Notice of Completed Administrative Proceedings, which has been sent to the Snake River Basin Court as notification of the change.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

A handwritten signature in cursive script that reads "Denise Hatfield". The signature is written in dark ink and is positioned above the typed name and title.

Re: Original Notice of Claim to a Water Right No. 65-10538

Renumbered to Notice of Claim to a Water Right No. 65-22720

Dear Claimants:

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new water right for your records. Please refer to your new claim number when corresponding with our office.

Also enclosed is a copy of the Notice of Completed Administrative Proceedings, which has been sent to the Snake River Basin Court as notification of the change.

If you have any questions concerning this ownership change, or the enclosed information, please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Denise Hatfield".

RE: Notice of Change of Water Right Ownership Claim No. 65-10538

Dear Property Owner(s):

This office has reviewed the Notice of Change of Water Right Ownership you have submitted (copy enclosed), however, we are unable to complete this ownership change at this time. The Warranty Deed submitted indicates a property transfer from Richard Blackwood, Personal Representative of the Estate of Ernest Cheney into your names. The above referenced water right, however, is in the name of James P Nisula.

If you have additional information for this property transfer, such as a chain of title, or tax notice in your name(s) which includes a description of the property by $\frac{1}{4}$ Section, Township and Range covered on this claim, we may be able to complete the ownership change.

Thank you for your patience and cooperation, as we have had several ownership changes to process. Please feel free to contact this office if you have any questions concerning this letter.

Sincerely,

DETERMINATION OF THE RIGHT TO
THE USE OF SURFACE AND GROUND-
WATERS OF THE PAYETTE RIVER
DRAINAGE BASIN.

Civil No. 3667

ORDER AND PARTIAL DECREE
PURSUANT TO I.R.C.P. 54(b)

The foregoing Stipulation, of Lake Irrigation District, Edward A. Cruzen and the Department of Water Resources, having come duly and regularly before the Court and good cause appearing therefore,

IT IS ORDERED AND DECREED that the water rights, priority dates, uses, periods of use, quantification of rights, diversion points, places of use and basis of claim identified in Exhibit A attached hereto and incorporated herein by reference are adopted by this Court, and the Proposed Finding of Water Rights in the Payette River Drainage Basin (hereinafter "Proposed Finding") shall be amended accordingly. Some of the rights listed in Exhibit A were previously decreed by the court in its judgment of January 21, 1986. They are included here to provide a complete listing of all rights on Lake Fork Creek. Claim No. 65-10095, a reserved right claimed by the Forest Service, is not included because the State of Idaho and the United States are currently planning to become engaged in negotiations concerning federal reserved water right claims.

IT IS FURTHER ORDERED that all protests and objections

filed by Lake Irrigation District and Edward A. Cruzen against the water rights adopted by this Court in the preceeding paragraph are dismissed with prejudice.

IT IS FURTHER ORDERED AND DECREED that the Proposed Finding of Fact No. 10 and Conclusion of Law No. 6 as set out in the foregoing Stipulation and Finding of Fact No. 4 and Conclusion of Law No. 3 as set out in Exhibit B of the foregoing Stipulation are amended by said Stipulation.

IT IS FURTHER ORDERED AND DECREED that for purposes of operating Water District 65K the gauging station located in the SW1/4SE1/4NW1/4 section 8 township 18N range 4E B.M., above Jumbo Creek and above Tyee Creek shall have 10 per cent added to said gauge readings to account for the added flows of Jumbo and Tyee Creeks and other less distinctive sources between the old site of the gauging station and the present site, unless modified by order of this Court due to changes in the measured flows.

IT IS FURTHER ORDERED AND DECREED that for purposes of operating Water District 65K, reference may be made to the decree of Paul Michelson et al v. M. H. Williams et al (7th Judicial District, Valley County, 1928) for a period of five years following the date of this order, to answer questions arising as to the distribution of water rights listed in Exhibit A. The director of the Department of Water Resources, pursuant to his authority under Chapter 6, Title 42, Idaho Code, will initially

determine any distribution questions. The elements of the Michelson decree that are used in any orders or instructions to the watermaster during this five year term shall be made a permanent part of the water district file for Lake Fork Creek and shall be considered by the director in any future orders or instructions to the watermaster.

IT IS FURTHER ORDERED AND DECREED that jurisdiction is reserved by the Court, upon 10 days notice to the parties hereunto, to make corrections of clerical errors, inadvertences or omissions in the listing of water rights of Exhibit A to the foregoing Stipulation, and the reservation of jurisdiction for this purpose will date one year from the date of this Order.

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief
