STATE OF IDAHO

OFFICE OF THE ATTORNEY GENERAL

LAWRENCE G. WASDEN

June 4, 2003

TO: Basin 29 Surface Water User

I am writing this letter to you as a courtesy to inform you that after review of the Department of Water Resource's preliminary recommendation for your water right(s), a quantity remark has been added. The quantity remark will reflect how your water right(s) was historically decreed in a prior decree. The prior decree recognized the quantity for your water right(s) as a fractional amount of the stream flow listed from the source on your water right. You can expect the Department's Director's Report, which is to be filed with the SRBA Court sometime in July, to include a quantity remark as follows:

> The amount of water diverted under this water right may not exceed *(decreed percent or fraction)* of the stream flow of *(decreed source)* at the point of diversion described above at any given time. This water right shall not provide more than .02 cubic feet per second per acre at any time.

The information in parentheses and italics will reflect whatever fraction and source is correct for your water right(s).

If you disagree with the inclusion of this quantity remark in your water right, you will be able to file an objection with the SRBA Court. A Notice of Filing Director's Report will be mailed to you along with the Director's Report for your water right(s) sometime in July. This Notice will outline the deadlines and process for filing an objection to your water right(s).

If you have any further questions regarding this matter, you can contact me at 208-327-7900.

Very truly yours,

Candice M. McHugh
Deputy Attorney General, IDWR
