RE: Snake River Basin Adjudication (SRBA)
Notice of Claim to a Water Right #79-14111

Dear Mr. and Mrs. Crea:

Working further with your claim for the house, I found the property and well lie south of the ridge and in Basin 79 where the surface water flows down Bowmans Gulch and to Rock Creek that are in Basin 79. Basin 85 north of the ridge and where the other recent claims are located is part of the Clearwater drainage. I have enclosed a map of sorts illustrating this basin business.

I have enclosed a suggested amended claim form to submit. Please note the priority date corresponds to what you told me and to the enclosed Field Inspection Report (Const End Date). The amount of water is changed to move the decimal point where .04 cfs is effectively 20 gallons per minute, again as the Field Inspection Report shows. If you are satisfied with this amended claim, please sign it in front of a Notary Public and return to this office. You may want to keep a copy for your records.

Mr. Givens has been advised to withdraw his Motion to File a Late Claim since IDWR has not reported Basin 79 to the Court yet, but will in the near future. The Court's permission is not necessary for a Basin 79 claim. The same claim document was received at IDWR on January 18, 2005, as you may know, and assigned 79-14111.

Please call me if you have any questions. Thank you for your patience and assistance.

Sincerely,

Donald V. Shaff, MPA
Manager, Adjudication Technical Section
