RE: Weiser Irrigation District claim 67-14621

Dear Danielle:

Enclosed is our notice of claim for the addition 60 cfs from the Weiser River. I was able to track to the expansion of the right when the new siphon was build under Manns Creek. I am including a affidavit supporting the April 15, 1957 date. When we finally get the acreage figure for the District, we will send the additional fees.

Sincerely yours,

Jay Edwards

In the Matter of Notice of Water right claim 67-14621
Weiser Irrigation District 60 cfs priority date 04/15/57

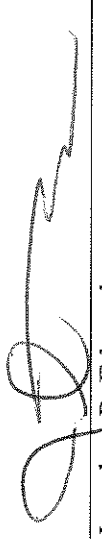

STATE OF IDAHO)
COUNTY OF WASHINGTON) : ss.

JONATHAN P. EDWARDS aka Jay Edwards, being first duly sworn, deposes and says that I am the Secretary of the Weiser Irrigation District . The limiting factor of delivery additional water down the District's Galloway canal is the siphon under Manns Creek east of Weiser. I am enclosing true and accurate certified copies of the Weiser Irrigation District Board meetings held in 1956 and 1957.

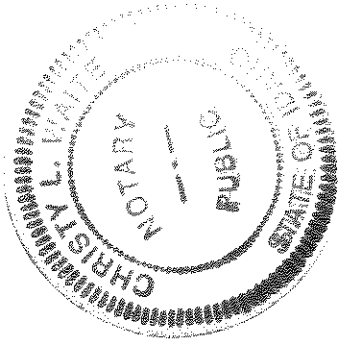

In August 1956 the Board hired an Earl Reynold to plan a new siphon and oversee the strengthening the upstream canal banks. The cement contract was let in October 1956 to George Petty. In December the final approval was given and demolition was started. Construction draws were taken each month with the final billing in April 1957.

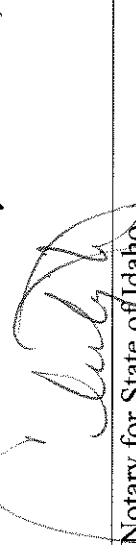

The new siphon and raised canal banks were finished prior to the beginning of the 1957 irrigation season.

Date: November 7, 1957
