8/24/97

Call from Mrs
Gossard. Turns out
their H&O right must
have never been
recorded - only have
one for 1947. They
also checked with Dept
of water resources.
Will work on getting
survey right away

Info on phone call to J. L.
Kemp, Fayette NF. about water
right for ditch for Ethel Gossard

Dear Bill,

22606
JPA

I am enclosing the papers
for my property at Bear
and also for Beulah Ridge
I rent her land

I have rented it for 25 years
no buildings that use water

although I can't find my copy,
she has an older report from
1900. I'm sure I do, too

They did re-construction on this
ditch in 1940. The old ditch
was smaller. If you need
a copy of the map please make
one and clip it with her material

I am going to call
the Water Resources at
House and try to find the
original 1901 water claim
line gone thru my papers
and it has evidently been
lost.

Thank you

Esther M. Grossera
