RE: Notice of Error (NOE) for Snake River Basin Adjudication (SRBA) preliminary recommendation 29-00443M

Dear Mr. Griggs,

Our office received the NOE reply you submitted on March 17, 2003. You requested that the recommended acreage be changed from 1 acre to 1.25 acres. The original claim you filed only claimed one acre of irrigation (enclosed). IDWR cannot recommend more than what is claimed.

I did change the map to remove your house and add irrigated ground to the SW portion of your property that you indicated should be included.

If this recommendation is still unsatisfactory to you, the first thing you will need to do is amend your claim to show the acreage that you feel is representative of your irrigated ground. For your convenience, I am sending you a copy of an unsigned claim. Initial any changes you wish to make on the claim and sign it in front of a notary. When completed, return it to this office **by June 16, 2003**. If received by this date I will re-review the evidence and see if a change in the recommendation can be supported.

You will be notified by the SRBA court at the time the directors report is issued. If you still disagree with the recommendation, you will have a chance to object and be heard by the SRBA court.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent
Adjudication Bureau
