

10-3-01 : Stopped By What I think is Tray's Home. Elderly Woman
FE answered door but didn't speak English (Italian I think)

: Send a letter - POU is flat enough that it could have
been flood irrigated, but not in original POU

10-12-01 : Angelo responded to letter sent Oct 9, 2001. Says his
dad said they have right to 10 inches. Said
dad used to flood irrigate. Got to high points
using a culvert under driveway.

: I asked Him to dig out any information that would
speak of the 10 inches.
↳ 8 in

: Angelo also said He doesn't irrigate the entire Farm
Claimed 30 acres, I found 34 acres of irrigatable
land. Need to meet with Angelo and determine
what is irrigated

10-24-01: DOD Changed in 1984
FE

- Diesel Powered Pump - mobil
- Bridge - won't work - send form for culvert
- Pump - Model - VRG155
size - 3/8 x 3 3/4
- Put water on whole Farm about 15 yrs ago
- 46 Dives 4" = 3 lines
- Angelo said He dry farmed the majority of farm
- Old Ditch to the north of the property that
Enabled flood irrigation. Andersons Continued this.
