RE: Change in preliminary recommendation for Snake River Basin Adjudication claim
29-00446B

Dear Mr. and Ms. Foulkrod,

I spoke with Larry on February 28, 2003 about his concern regarding a remark on the preliminary recommendation for 29-00446E. The comment read as follows:

**RIGHT INCLUDES ACCOMPLISHED CHANGE IN POINT OF DIVERSION
PURSUANT TO SECTION 42-1425, IDAHO CODE.**

After reviewing I do not feel that the above remark should be on the recommendation. I have removed that remark from the recommendation (enclosed).

As we spoke about on the phone, there is a similar remark to the one above related to the Place of Use. I have to include that remark because part of the recommended place of use (irrigated ground) lies in a 40 acre tract that is not defined in the decree.

Please feel free to contact me with any questions. If everything looks satisfactory then no further action needs to be taken. You will be notified by the SRBA court at the time the directors report is issued.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent
