On the way to you in the US Mail are completed notices of error for 7 water right claims and a new claim for a licensed water right that we have not claimed yet in the SRBA.

Licensed water right 21-07206 is for West End Campground. Our claim should be identical to the license.

We agree with the recommendations for water right claim numbers 21-02132, 21-02134, 21-02135, 21-02147, 21-04043, 21-04069 and 21-07165. However, I observe that the purpose of use for each of these claims is "recreation". I'm wondering about the appropriateness of the purpose of use being recreation when each of the uses may be better described as "domestic" as per IC 42-111 where the definition of domestic purposes (a) specifically includes public campgrounds. I realize 5 of these are licensed water rights and I don't want to inhibit progress. But if these would be more appropriately described as domestic uses now would be the time to make that determination and we would support it.

We would also encourage the adding of the specific campground or site in the explanatory material. I think that helps anyone who looks at the water right know more quickly what the use is.

Thank you for your consideration. If you have any questions about this matter, please contact me.
