

MEMORANDUM

Date: October 27, 2005

To: Sally Sherman

From: Craig L. Saxton

While going through this claim I found a change of ownership request submitted in 2002 that has not been fully completed.

Partially decreed rights 67-11350 and 67-11352 have been processed so we do not need to forward this to allocations.

However, this claims a split from 67-386. I am very familiar with the water rights applicable to this property and am confident that the claims that should be changed are 67-404 and 67-405.

I have noted that on the change of ownership and signed off on the last page.

Thanks.
