- Water location document
- Plat map for Homesteads in T8S, R43E.

Candice,
I will also mail you a copy of this
with the legal highlighted on the plat
map.

The land described under this Notice
is owned by the Allens now (Preston &
Roland Allen).

If you look at the legal on the Notice, it doesn't
describe all of the lands even though they are owned
by the same person according to the plat. Any problem
recommending the 1886 date? Cindy

Notes

5/23/05 owner: Roland Allen L&L, Inc.

1910 Oakley Ave, Burley, ID.

I thought Skip went out on this claim but it was on 27-12003. He felt 26.68 cfs was too high for the ditch structure. They claimed 2" per acre. May recommend only 1" per acre. Nothing has been submitted requesting for needing the additional 1" per acre.

I tried to do a field exam to verify the PDR's info. When I went out to visit with Keith Hunsaker, Slog creek wasn't open yet, there was still too much snow.

There is a document in the file that part of this land was recorded under a posted notice. but the claim would need to be split to do that. CB

5/23/05 4:50pm faxed Katy a copy of the questions (ccvr) mailed layout. CB

6/20/05 Keith came in to talk about the priority date on this PDR. The posted notice in the file describes only the S² of NW¹/₄ of section 24, (also SW) Allen hasn't claimed the SW.

I'm going to have Pauline see if there is a plat map at assessors office of who owned the NW of sec 24, T8S, R43E. Accomplish chg.

6/20/05 On the 1964 imagery, Keith showed me the old diversion and ditches to the piece in SE NW + NWNW of Section 24.

I have an appointment Monday June 27th, 2005 to see the slug creek diversions. The piece west of slug creek can't be irrigated from the recommended POP. Additional POP's on slug creek need to be determined.

Keith said Ryan Madsen GPS'd the points last year.

Notes

10-3-03 Did not find a deed for 1941 at the
Courthouse. BP

3/12/04 The water master records from 1975-1988
does not show delivery of Slug Creek
to Roland Allen. Why?

No evidence to support 1931 priority.
No evidence at all for this source!
Need evidence! Keith & Carol Hunsicker
came in to talk to me about these rights. CB
Some of this land was originally ~~for~~
in Preston & Roland Allen's.

3/19/04 Keith Hunsicker submitted a
letter from John Davidson, previous
water master in basin 27 as evidence
of priority. CB

Notes

4/14/04 Ryan Madsen - 01 water district.

* 1.27 cfs w/o rounding on slug ckt. (63.5.

1.24 cfs w rounding on slug ckt.

- heavy water grass, not in Main channel.

Lanes Ck flow is too high and flowing all over weir have to go back later.
