Subject: Additional information  
Address Update

Dear Rondo,

I hope this letter finds you well and that you and your family had a nice Thanksgiving. I wanted to let you know what I found on the two wells by the old Hogan property. I searched our database on the two wells and came up with nothing. Either the previous owners had never developed the wells enough to file for a water right or it was a stock well. You'll have to see what information you can find out about the wells.

We need to update your address in our system so I've enclosed two address change forms for you to sign and return to me as soon as possible. There are two forms because your house well has already been decreed and I have to send that form to Boise and the other form is for me to update the claims I'm currently reviewing.

In reviewing the information on the wells for the old Hogan place I have some additional questions. The decree discusses a total of 5 wells. I have more than 5 wells claimed under this decree. How many of the wells we visited are from the original 5 wells? If they aren't when were they drilled and put to beneficial use? Do you have an abstract on this property that I could look at? The Global Positioning system (GPS) located two of the three wells in the NENE of section 24, township 7 south, range 39 east and one in the NWNW of section 19, township 7 south, range 40 east of the Boise Meridian. Is one of the wells in section 24 associated with license 29-2425? Is it separate or is it connected to the other two wells? Are all of these wells connected to the Hatch wells? If not, which wells are connected with the Hatch wells?

I would appreciate it if you could give me a call in Soda as soon as possible so we can discuss these wells. Thanks for your cooperation.

Happy Holidays,

Cindy E. Bird
