1. Describe the portion of the proposed recommendation with which you disagree (*e.g. priority date, period of use, source):
Period of use is not acceptable.

2. Describe the changes you wish to make in the proposed recommendation:
There should be no limitation or restriction on the use of this water.

3. Give a brief explanation as to why you disagree with these portions:
Water was filed on and put into use in 1905. Water has been used for irrigation and stock use for nearly 100 years. Maintenance by myself and immediate family members has been on-going for over 60 years. As modern technology progresses there are new and better/economical ways and means of better use of this water.
